

MEMBERSHIP IN GENERAL DENTISTRY TRAINING PROGRAMME 2015 - 2017

Dear HKDA members,

Subsequent to the successful completion of the Membership in General Dentistry (MGD) training programme 2012-2014, The College of Dental Surgeons of Hong Kong (CDSHK) and Hong Kong Dental Association (HKDA) came to an agreement in March 2015 for HKDA to be the administrator of the Membership in General Dentistry (MGD) training programme 2015-2017.

The training programme is mainly designed to prepare the MGD trainees for the MGD Part I and Part II examinations. It is a competence-based programme according to the guidelines of accreditation and training in MGD. For further details of the training programme, please refer to CDSHK's website (www.cdshk.org).

The training programme is module-based, consisting of CGD (Committee of General Dentistry) accredited lectures and workshops on clinical practice and essentials of dental practice on General Dentistry. There are some supporting programmes to guide trainees in examination preparation and they can be useful to interested practitioners.

Dental colleagues who are not CDSHK trainees may also enroll in individual modules at a fee of HK\$1,200 per module. For enrolment, please complete the enrolment form and submit it together with payment to HKDA Secretariat by the specified deadline.

Dr Haston Liu W M
Chairman, Committee of General Dentistry
The College of Dental Surgeons of Hong Kong

Dr Kenny Lau K K
Chairman, General Dentistry Committee
Hong Kong Dental Association

Provisional Program Content of MGD Training Program 2015 - 2016

Date & Time	Module Code	Module Topic	Speaker	Duration (Hours)
20 Sep 2015 (Sun) 10:00am – 12:30pm	CP1	Treatment Planning Considerations in General Dentistry	Dr Haston LIU Wai Ming	2.5
25 Oct 2015 (Sun) 9:30am - 12:30pm	CP5	Dentoalveolar Surgery	Dr Mike LEUNG Yiu Yan	3
25 Oct 2015 (Sun) 2:00pm - 5:00pm	EDP1	Dental Imaging	Dr Thomas LI Ka Lun	3
29 Nov 2015 (Sun) 9:30am - 12:30pm	CP4	Management of Periodontal Diseases	Dr Simon HO Kam Yuen	3
29 Nov 2015 (Sun) 2:00pm - 5:00pm	CP3	Treatment of Pulpal and Periradicular Diseases	Dr Robert NG Pong Yin	3
13 Dec 2015 (Sun) 9:30am - 5:00pm	EDP7 / SDP3	Dental Practice Inspections - Training	Dr Brent Ian WELLER	6
20 Dec 2015 (Sun) 9:30am - 12:30pm	CP6	Musculoskeletal and Occlusal Therapy	Dr Winnie CHOI Wing Shan	3
20 Dec 2015 (Sun) 2:00pm - 5:00pm	CP5	Dental Therapeutics	Dr Richie YEUNG Wai Kit	3
17 Jan 2016 (Sun) 9:30am - 12:30pm	CP10	Management of Paediatric Patients	Prof Stephen WEI Hon Yin	3
17 Jan 2016 (Sun) 2:00pm - 5:00pm	CP2	Pain and Anxiety Management	Prof Stephen WEI Hon Yin	3
21 Feb 2016 (Sun) 9:30am - 5:00pm	CP7	(1) Fundamental Orthodontics (2) Interceptive Orthodontics and Adult Orthodontics Workshop	Dr Wilson LEE Dr Teresa NG Chui Shan Dr SHE Tsang Tsang Dr George WANG Shi Chi Dr George WONG Wai Kwong Dr Charlene WU Chun Lam Dr YANG Yanqi	9
28 Feb 2016 (Sun) 9:30am - 12:30pm				
20 Mar 2016 (Sun) 9:30am - 5:00pm	CP13	Implant Therapy	Dr Francis CHAN Wo Chi	6
To be confirmed	CP15	Management of Trauma in Deciduous and Permanent Dentition	To be confirmed	3
To be confirmed	CP16	Special Needs Dentistry	To be confirmed	3
April 2016	EDP2 / SDP2	Medical Emergencies Workshop	To be confirmed	8
To be confirmed	CP9	Caries Management	To be confirmed	3
To be confirmed	CP8	Oral Medicine, Oral Pathology and Oral Microbiology	To be confirmed	3
To be confirmed	EDP8	Community Involvement	To be confirmed	3
To be confirmed	CP11	Dental Material Science	To be confirmed	3
To be confirmed	CP12	Rehabilitative Therapy	To be confirmed	3
To be confirmed	CP14	Aesthetic Therapy	To be confirmed	3
To be confirmed	EDP4	Information Management and Critical Thinking	To be confirmed	3
	EDP5	Communication		3
To be confirmed	EDP7 / SDP3	Establishing a Practice and Practice Management	To be confirmed	3
To be confirmed	EDP6 / SDP1	Infection Control (1) Infection Control (2)	To be confirmed	3
				3
To be confirmed	EDP2 / SDP2	Medical Emergencies	To be confirmed	3
				3
Dec 2016	EDP6 / SDP1	Infection Control Workshops for Private Dental Practitioners	To be confirmed	2.5

CP = Clinical Practice (CP) Modules

EDP = Essential of Dental Practice (EDP) Modules

SDP = Supervised Dental Practice Program (SDP) Modules

Supplementary Workshops

Management of Paediatric Patients

Module Code: CP10

Speaker: Professor Stephen WEI Hon Yin

BDS, MDS Hon. (Adelaide), MS (Illinois), DDS (Iowa), FRACDS, FICD, FACD, FDSRCS (Eng. Hon), FADI, FHKAM (Dental Surgery), FCDHK (Paed.Dent) Diplomate, American Board of Pediatric Dentistry

Professor Stephen Wei is Professor Emeritus of the Faculty of Dentistry of the University of Hong Kong and Former Dean, Faculty of Dentistry and Director of the Prince Philip Dental Hospital from 1989 to 1997. He was Chair Professor and Head of the Department of Children's Dentistry and Orthodontics at the University of Hong Kong in 1984 until 1998 when he retired from the University of Hong Kong. Prior to returning to Hong Kong, Professor Wei taught at the University of Iowa (1967 – 1983) where he was Professor and Chairman of the Department of Pedodontics. In 1983-4, he was appointed Professor and Chair of Pediatric Dentistry and Vice-Chairman of the Department of Growth and Development, at the University of California San Francisco.

He was the Founding Editor-in-Chief of Pediatric Dentistry, The Journal of the American Academy of Pediatric Dentistry (1978 – 1982) and is currently Editor Emeritus. Professor Wei has published extensively, including over 60 chapters in books and monographs and more than 200 research and clinical papers. He is the author and co-author of many books including "Clinical Uses of Fluorides", "Pediatric Dentistry: Scientific Foundations and Current Practice." "Fluoride, an Update for Dental Practice" and Pediatric Dental Care", "Pediatric Dentistry: Total Patient Care" and "Occlusal Guidance in Pediatric Dentistry". He has supervised the research dissertations of more than 10 PhD candidates and about 30 masters' degree students in the US and Hong Kong.

He was the President of the International Association for Dental Research (1993 – 1994) and the President of the South East Asian Association of Dental Educators (1993 - 1994). He has been bestowed Honorary Professorships in many Universities in China including the Peking University, Wuhan University, the Sichuan University, the Second Medical University, the Ninth Peoples' Hospital in Shanghai, Tongji University in Shanghai and the Sun Yat Sen University of Medical Sciences in Guangzhou and Kaoshiung University in Taiwan.

Professor Wei has lectured extensively all over the world. From 1998 to 2005, he served as the Consultant, Professional Education, for DENTSPLY Asia and in that role he has organized many Continuing Education Conferences as well as edited many clinical monographs for distribution in Hong Kong as well as in other countries in Asia.

Professor Wei was on the Inaugural Organizing Committee of the Hong Kong Academy of Medicine and served as the Inaugural President of the College of Dental Surgeons of the Hong Kong, the Hong Kong Academy of Medicine for more than 5 years. He was a member of the Interim Council of the Hong Kong Academy of Medicine from its inception. He was the first Chairman of the Board of Examiners of the Hong Kong Dental Council Statutory Examinations for Licensure of overseas dentists in Hong Kong until 1998. He served as the Editor-in Chief of the Hong Kong Dental Journal from 2008-2012.

Professor Wei is the Founding President of the Hong Kong Society of Paediatric Dentistry and served many terms in that role including as its President from 2008-2012. He now spends part of his time in a group private practice with several of his former dental and postgraduate students from the University of Hong Kong.

Professor Wei is a member of the Hong Kong Country Club and he plays early morning tennis several times a week and plays golf on a weekly basis. He loves travelling, photography, and classical music and is a member of a church choir in Hong Kong.

The 1st Quarter of 2016 – Module Details

Management of Paediatric Patients

Module Code: CP10

Speaker: Professor Stephen WEI Hon Yin

BDS, MDS Hon. (Adelaide), MS (Illinois), DDS (Iowa), FRACDS, FICD, FACD, FDSRCS (Eng. Hon), FADI, FHKAM (Dental Surgery), FCDHK (Paed.Dent) Diplomate, American Board of Pediatric Dentistry

Date & Time	: 17 January 2016 (Sunday)	9:30am - 12:30pm
Venue	: G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building 99 Wong Chuk Hang Road, Aberdeen, Hong Kong	
Fee	: HK\$1,200	
Language	: English	
CPD Credit	: HKDA CPD hours: 3 ; DCHK CPD points: 3 ; CDSHK CME points: 3 (Category A)	
Synopsis	: This module will introduce MDG to the examination of the paediatric patient from infancy through adolescence. It will include the techniques of examination, diagnosis and treatment planning. The contents will cover commonly seen oral conditions including early children caries and their clinical management. It will include commonly encountered trauma to the dentition and the soft tissues. The clinical treatment of dental caries with a choice of restorative materials and techniques will be discussed. The proper use of stainless steel crowns for severely carious posterior teeth and the use of pediatric strip crowns for anterior teeth will be demonstrated. In addition, the management of pulpal involvement using indirect pulp capping, pulpotomy and pulpectomy techniques in the primary and young permanent dentition will be shown. MDG is also expected to recognize the development of early malocclusion and their interception with guided occlusion techniques by the use of simple removable and/or simple fixed appliances.	

Pain and Anxiety Management

Module Code: CP2

Speaker: Professor Stephen WEI Hon Yin

BDS, MDS Hon. (Adelaide), MS (Illinois), DDS (Iowa), FRACDS, FICD, FACD, FDSRCS (Eng. Hon), FADI, FHKAM (Dental Surgery), FCDHK (Paed.Dent) Diplomate, American Board of Pediatric Dentistry

Management of Paediatric Patients

Module Code: CP10

Speaker: Professor Stephen WEI Hon Yin

BDS, MDS Hon. (Adelaide), MS (Illinois), DDS (Iowa), FRACDS, FICD, FACD, FDSRCS (Eng. Hon), FADI, FHKAM (Dental Surgery), FCDHK (Paed.Dent) Diplomate, American Board of Pediatric Dentistry

-
- Date & Time : 17 January 2016 (Sunday) 2:00pm - 5:00pm
- Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building
99 Wong Chuk Hang Road, Aberdeen, Hong Kong
- Fee : HK\$1,200
- Language : English
- CPD Credit : HKDA CPD hours: 3 ; DCHK CPD points: 3 ; CDSHK CME points: 3 (Category A)
- Synopsis : This course will teach MGD the ability to recognize and manage the anxious, fearful and phobic paediatric patients and their parents in the dental office. The dentist should be able to provide appropriate behaviour modification techniques to allay the fear and anxiety of their patients. The ability to administer “painless” local anesthetic solutions using the proper techniques should be a pre-requisite to all other forms of needed treatment. The dentists should be familiar with the use of various medicaments to allay fear and anxiety using rectal, oral, inhalation and IV routes of administration for the right patient. The dentist must be competent in the use of nitrous oxide including maintaining the proper equipment and the delivery of the appropriate concentrations of oxygen and nitrous oxide. The administration of deep sedation using the Monitored Anesthetic Care (MAC) techniques should be administered only by a qualified anesthesiologist who is competent in managing the patient but also in working harmoniously with the dental team. When deep sedation is used, he and his dental staff must be fully trained in the administration of the IV method including resuscitation and life support procedures. The dentist and his staff must be knowledgeable of the guidelines for sedation for paediatric patients.

The 1st Quarter of 2016 – Module Details

Two-Day Training on: (1) Fundamental Orthodontics

Module Code: CP7

Speakers:

Dr LEE Wilson

Specialist in Orthodontics
BDS (HK), M Orth (HK),
M Orth RCS (Edin),
AdvDipOrtho (HK),
FCDSHK (Orthodontics),
FHKAM (Dental Surgery)

Dr Teresa NG Chui Shan

Specialist in Orthodontics
BDS (HK), M Orth (HK),
M Orth RCS (Edin),
AdvDipOrtho (HK),
FCDSHK (Orthodontics),
FHKAM (Dental Surgery)

Dr George WANG Shi Chi

Specialist in Orthodontics
BDS (HK), MDS (HK),
DMD (Tufts),
FCDSHK (Orthodontics),
FHKAM (Dental Surgery)

Dr Wilson Lee obtained his Dental Degree and Master of Orthodontics from the HKU. He is an International Key Opinion Leader of Incognito Lingual Appliance and an invited speaker in international lingual appliance conferences. He is a part-time clinical lecturer in Orthodontics at HKU.

Myths and Facts of Invisible Orthodontic Appliances

When beautiful face and smile play a significant role in our world today, the number of orthodontic patients in orthodontic practices is ever increasing. Most patients, including adolescents, want to improve the alignment of their teeth and smiles without showing the metal braces, and prefer treatment with invisible or nearly invisible appliances. Despite the wide availability of clear ceramic brackets in the market, patients continue to prefer 'invisible' braces when they have their teeth straightened. Advertising and marketing by orthodontic product companies have driven the patient demands to higher level nowadays. Orthodontists always choose to use the system that can meet patient's demand and deliver clinically excellent treatment results. Dr Lee will critically review the indications and limitations of removable clear aligners and lingual fixed appliances, based on available literatures and clinical expertise.

Dr Teresa Ng is a specialist in orthodontics in private practice. She obtained her BDS in 1999 and Master of Orthodontics in 2005 from the University of Hong Kong. She was conferred Specialist in Orthodontics in 2008. Dr. Ng has been a part-time clinical lecturer in both undergraduate and postgraduate programme in Faculty of Dentistry, the University of Hong Kong since 2005.

Hypodontia and Orthodontics

Hypodontia is a common dental anomaly problem. The necessity for treatment, options of treatment and timing for treatment will be discussed.

Dr George Wang graduated from the dental program in the University of Hong Kong in 1985. After spending six years in private general practice, he pursued his postgraduate Orthodontic training in HKU and was awarded MDS in 1994. He was conferred as Specialist in Orthodontics in 1999 and has started his private Orthodontic practice for 20 years.

Complications of Orthodontic Treatment

There are known knowns in life. And there are unknown unknowns as well. It is important to be mindful of known unknowns before commencing any kind of treatment to avoid harm to patients. Complications are known unknowns we face in any kind of intervention of natural order and that includes treatment. Examples of it in clinical orthodontic treatment will be showcased and discussed in this presentation.

The 1st Quarter of 2016 – Module Details

Two-Day Training on: (1) Fundamental Orthodontics

Module Code: CP7

Speakers:

**Dr George WONG
Wai Kwong**

Specialist in Orthodontics
BDS (HK), MDS (HK),
MRCD (C), FCDSHK
(Orthodontics), FHKAM
(Dental Surgery)

**Dr Charlene WU
Chun Lam**

Specialist in Orthodontics
BDS (HK), MOrth (HK),
MOrthRCS (Edin), AdvDipOrth
(HK), FCDSHK (Orthodontics),
FHKAM (Dental Surgery)

Dr YANG Yanqi

Clinical Assistant Professor,
Orthodontics, Faculty of Dentistry,
The University of Hong Kong,
Hong Kong, China BDS
(Beijing Med), MOrthRCS (Edin),
PhD (PKU), FDSRCS (Edin)

Dr George Wong attended the University of Hong Kong where he received his dental degree and postgraduate training in Orthodontics. After various employed dental positions in Hong Kong and Canada, he started his own practice in 1995 and has a keen interest in providing interdisciplinary services to orthodontic patients. He is a specialist in Orthodontics and does part-time teaching at the Dental Faculty of HKU.

Roles of Orthodontics in Multi-Disciplinary Dental Treatment

Most dentists would agree that if orthodontic treatment is properly utilized, it can be the most rewarding treatment to their patients. This short presentation will highlight some of the benefits of orthodontic treatment that you can bring to your patients, from achieving an aesthetic restoration to simplifying a complex oral rehabilitation situation. From helping to change a seldom smile patient to one always smile with confidence. That certainly would be the line of thought contemporary dental practitioners could take in their practices.

Dr Charlene Wu obtained her BDS and Master of Orthodontics from The University of Hong Kong in 1999 and 2005 respectively. She finished her higher training in the Department of Health HKSAR in 2008 and has been a registered Specialist in Orthodontics since then. She is a part-time clinical lecturer in the postgraduate orthodontic program in The University of Hong Kong and currently working in private practice.

Uprighting of Impacted Mandibular Third Molars with Conventional Orthodontics

Third molar are having the highest impaction rate and are always considered redundant. This presentation would show the possibility of uprighting impacted mandibular third molar to replace the poor prognostic mandibular first or second molars with conventional orthodontic mechanics as to eliminate the needs for prosthetic replacement and to restore the oral function.

Dr Yang Yanqi is the Undergraduate Programme Director and Interim Postgraduate Programme Director in Orthodontics in Faculty of Dentistry, the University of Hong Kong, and a trainer of Specialty Board in Orthodontics of the College of Dental Surgeons of Hong Kong. She is the reviewer of internationally refereed journals such as International Journal of Dentistry, Journal of Investigative and Clinical Dentistry, The Angle Orthodontist, Scientific Research and Essays, European Journal of Orthodontics, Oral Health and Preventive Dentistry, etc.

Impacted Maxillary Canines

Permanent maxillary canines are the second most frequently impacted teeth after the third molar. Besides its own problems of eruption, an impacted canine can also affect the neighboring teeth such as root resorption of lateral incisors. Early detection of any abnormalities in tooth development and eruption is essential to give the opportunity for interceptive action to be taken. It is important to do the diagnosis and prognosis evaluation for the unerupted canine, the adjacent teeth, the retained deciduous teeth and also the associated malocclusion. In this presentation, we will discuss the early detection and the diagnosis of impacted maxillary canines in children and appropriate care in early phase.

Two-Day Training on:

(2) Interceptive Orthodontics and Adult Orthodontics Workshop

Module Code: CP7

Speaker:

Dr Franklin SHE Tsang Tsang

Specialist in Orthodontics

BDS (HK), M Orth (HK), M Orth RCS (Edin), AdvDipOrtho (HK), FCDSHK (Orthodontics), FHKAM (Dental Surgery)

Dr Franklin She obtained his BDS with honor in 1998 in HKU and was entitled the Specialist in Orthodontics in 2004. He published articles in various journals including the American Journal of Orthodontics and Dentofacial Orthopedics and Journal of Dental Research. He started his exclusive orthodontic practice more than ten years and involved in local undergraduate and postgraduate orthodontic trainings as a part-time clinical lecturer. Dr She lectured intensively in the past few years in Hong Kong, Taiwan and Mainland China. He was the Vice President of the Hong Kong Society of Orthodontists from 2008-2009.

Synopsis:

A series of orthodontics cases will be presented and discussed in an interactive way on the following problems: Eruption disorders, crossbite, crowding, spacing, open bite, deep bite, protrusion, diastema, oral habits, gummy smile, adult patients with periodontal disease and tooth lost.

By the end of the course, the attendants should have confidence in diagnosing a vast variety of orthodontic problems, knowing when to refer to an orthodontist, understand various options orthodontists can offer to the patients and having confidence working closely with orthodontists to provide comprehensive care.

The 1st Quarter of 2016 – Module Details

Two-Day Training on:

(1) Fundamental Orthodontics

(2) Interceptive Orthodontics and Adult Orthodontics Workshop

Module Code: CP7

Date & Time : 21 February 2016 (Sunday) 9:30am - 5:00pm
 28 February 2016 (Sunday) 9:30am - 12:30pm

Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building
 99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Fee : HK\$3,600

Language : English

CPD Credit : HKDA CPD hours: 9 ; DCHK CPD points: 9 ; CDSHK CME points: 9 (Category A)

Schedule : Please refer to the table below

21 February 2016 (Sunday)		28 February 2016 (Sunday)	
Session 1	9:30am – 12:30pm	Session 3	9:30am – 12:30pm

The 1st Quarter of 2016 – Module Details

Implant Therapy

Module Code: CP13

Speaker: Dr Francis CHAN Wo Chi

BDS (HKU), DGDP (UK) RCS (Eng), P DipDS (HKU), MGDS RCS (Edin),
MGD (CDSHK)

Dr Francis Chan graduated from the University of Hong Kong in 1988, and since then has been working as a private general dental practitioner in Hong Kong. He received structured further training in Periodontology and obtained a Postgraduate Diploma in Dental Surgery (P DipDS) in 1995. He also obtained additional qualifications in general practice, namely DGDP(UK) RCS(Eng) in 1995, MGDS(Edin) in 1997 and MGD(CDSHK) in 2008. He served in the Faculty of Dentistry (HKU) as a part-time lecturer in Periodontology from 1995-97 and Conservative Dentistry from 1997-2002 respectively. He is a trainer and an examiner for the MGD examination of the College of Dental Surgeons of Hong Kong. He is also an additional examiner of the HKDC licensing examination.

Dr Chan has been providing implant treatment to patients since 1995. He received further training in implantology at the Universities of Bern, Geneva and Hong Kong respectively. In 2009, he completed postgraduate training in implant dentistry and was awarded MSc (Implant Dentistry). He is also a credentialed member of the International Congress of Oral Implantology, American Academy of Implant Dentistry and International Team for Implantology (ITI). Over the years, he has worked with multiple implant systems - placing, restoring and maintaining implants and implant supported restorations. Since 2010, he has been serving as part-time lecturer in Implant Dentistry at the Faculty of Dentistry (HKU). Dr Chan is keen on education and has been active in giving lectures and seminars in this field in Hong Kong, China and internationally.

Date & Time : 20 March 2016 (Sunday) 9:30am - 5:00pm

Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Fee : HK\$2,400

Language : English

CPD Credit : HKDA CPD hours: 6 ; DCHK CPD points: 6 ; CDSHK CME points: 6 (Category A)

Synopsis : This lecture gives a contemporary view of the core concepts of dental implantology, outlines key aspects of its scientific background and describes how these foundation principles are safely implemented in clinical practice.

The morning lecture pertains to rendering implant service to the partially edentulous patient in a general dental practice setting. Highlights include indications and contraindications of implant therapy, role of implant-restorations in comprehensive dental care, treatment planning that sensibly utilises implants, case selection, assessment and preparation at both patient and site levels.

The afternoon lecture includes consent and patient communication, types of implants, common types of implant-restorations, placement of implants and their restorations for uncomplicated cases and the continual diagnosis, monitoring and maintenance of implant-supported restorations.

MGD Training Program – The 1st Quarter of 2016

Enrolment Form for non-MGD Trainees

Deadline for submission: One week before the event date

To: Ms Vicky Choi, HKDA Secretariat

8/F., Duke of Windsor Social Service Building, 15 Hennessy Road, Wanchai, Hong Kong

(Tel: 2528 5327 Fax: 2529 0755)

I would like to enrol in the following module(s) of the 1st Quarter of 2016:

Date & Time	Module Topics & Speakers	Module Code	Enrolment Deadline	Fee
17 Jan 2016 (Sun) 9:30am - 12:30pm	Management of Paediatric Patients <i>Prof Stephen WEI Hon Yin</i>	CP10	9 Jan 2016	<input type="checkbox"/> HK\$1,200
17 Jan 2016 (Sun) 2:00pm - 5:00pm	Pain and Anxiety Management <i>Prof Stephen WEI Hon Yin</i>	CP2	9 Jan 2016	<input type="checkbox"/> HK\$1,200
Two-day Training on (1) Fundamental Orthodontics (2) Interceptive Orthodontics and Adult Orthodontics				
21 Feb 2016 (Sun) 9:30am - 12:30pm	Session 1 <i>Dr YANG Yanqi, Dr Wilson LEE and Dr Franklin SHE</i>	CP7	13 Feb 2016	<input type="checkbox"/> HK\$3,600
21 Feb 2016 (Sun) 2:00pm - 5:00pm	Session 2 <i>Dr Teresa NG, Dr Charlene WU and Dr Franklin SHE</i>			
28 Feb 2016 (Sun) 9:30am - 12:30pm	Session 3 <i>Dr George WONG, Dr George WANG and Dr Franklin SHE</i>			
20 Mar 2016 (Sun) 9:30am - 5:00pm	Implant Therapy <i>Dr Francis CHAN Wo Chi</i>	CP13	12 Mar 2016	<input type="checkbox"/> HK\$2,400
Refund Policy for Cancellation of Reservation by post / fax / email: Cancellation made with at least 7 working days' prior notice: 50% refund Cancellation made without 7 working days' prior notice: No refund				Total: HK\$

(Tea and snacks will be served. Lunch will be provided for those who have enrolled in both morning and afternoon modules on the same day.)

Enclosed please find a crossed cheque (Cheque No. _____ Bank _____)
of HK\$ _____ made payable to "Hong Kong Dental Association Ltd."

Full Name (Block Letters): _____ Signature: _____

HKDA Membership No (if applicable): _____

Contact Phone Number: _____ Date: _____

Remarks:

- Reservation must be made by returning the enrolment form together with a cheque to HKDA Secretariat one week before the module takes place. **NO on-site registration will be accepted.**
- Limited seats are available and admission is on a first-come-first-served basis. Applicants will NOT be notified unless the application is NOT accepted. For confirmation of your application, please contact Ms Vicky Choi of HKDA Secretariat (Tel: 2528 5327)
- The program is subject to alterations and HKDA will not be held responsible for any consequences resulting from such alterations.
- The opinions expressed by the speakers may not necessarily reflect the viewpoints of HKDA and CDSHK.
- Limited car park spaces are available on a first-come-first-served basis.
- Upon official broadcast that Typhoon Signal no.8 or Black Rainstorm warning will be hoisted within two hours before the commencement of the lecture, the lecture will be cancelled and be arranged on another date. If it is broadcast that the signal will be cancelled within two hours before the commencement of the lecture, the lecture will continue and participants are required to take roll-call at the registration desk as scheduled.
- Registration will take place in the 30 minutes before the module begins.
- Please note that those who enrol in the lectures are required to sign in prior to attending the lecture and sign out upon finishing the lecture in person in order to obtain CPD credits. Those who do not fulfil the aforesaid requirements will be denied CPD credits and the Association may report to the CPD administrator(s) concerned.
