## Programme Content The 2<sup>nd</sup> Quarter of 2019 – Module Details

Date & Time	Module Code	Module Topic	Speaker	Duration (Hours)
4 April 2019 9:00am - 6:00pm	EDP2 / SDP2*	Medical Emergencies Workshop	Dr SO Lok Tsun Jerome (Specialist in Emergency Medicine)	8
14 April 2019				
9:30am - 11:45am (15 mins break)	CP11	Dental Material Science	Dr Walter LAM Yu Hang	2
11:45am - 12:45pm & 2:00pm - 3:00pm	CP14	Aesthetic Therapy	Dr Kingsley CHAN Hung Chiu	2
3:15pm - 5:30pm (15 mins break)	CP12	Rehabilitative therapy	Dr Annie WAN Kong Yuk	2
28 April 2019				
9:30am - 10:30am	CP16	Geriatric Dentistry	Dr Frankie SO Hon Ching	1
10:45am - 12:30noon (15 mins break)		Hospital Dentistry	Dr KUM Chun Sing	1.5
2:00pm - 4:45pm (15 mins break)		Special Needs Dentistry	Dr Kenneth HUI Kwok Kuen	2.5
26 May 2019 9:30am - 5:00pm	EDP3 / SDP4*	Quality Assurance and Ethics	Dr Raymond LEE	6
23 Jun 2019 9:30am - 12:30pm	CP8	Oral Medicine, Oral Pathology and Oral Microbiology	Dr Raymond CHOW Lop Keung	3

CP = Clinical Practice (CP) Modules

EDP = Essential of Dental Practice (EDP) Modules

SDP = Supervised Dental Practice Program (SDP) Modules

SP = Supporting lecture

Remarks : Lecture topics may be changed subject to the final decision of the CGD.

# MEMBERSHIP IN GENERAL DENTISTRY (MGD) TRAINING PROGRAMME 2018-2020

## The 2<sup>nd</sup> Quarter of 2019 – Module Details

### *Dental Material Science*

Module Code: CP11

### *Speaker: Dr LAM Yu Hang Walter*

Specialist in Prosthodontics

BDS, MDS, Adv Dip Prosth (HK), MPros RCSEd, FCDSHK (Pros), FHKAM (DS),  
MFDS RCSEd, MFDS RCPSG, FRACDS

Dr Walter Lam is a Clinical Assistant Professor of the Faculty of Dentistry, the University of Hong Kong. He received his dental and prosthodontic training in Hong Kong and holds memberships/fellowships of several Dental Colleges. He is an international dental advisor of the Royal College of Physicians and Surgeons of Glasgow and the Vice president of the Hong Kong Prosthetic Dentistry Society. His research interests are clinical audit of prosthodontic treatments and digital dentistry.

Date & Time : 14 April 2019 (Sunday) 9:30 am-11:45 am (including 15 mins break)  
Venue : Rooms 903-4, 9/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong  
Language : English  
CPD Credit : HKDA CPD hours: 2, DCHK CPD points: 2, CDSHK CME points: 2 (Cat A)

### **Synopsis**

Dental materials are specially fabricated materials, designed for use in dentistry. There are many different types of dental materials, and their characteristics vary according to their intended purpose (Wiki). This lecture will introduce some basic science related to dental materials as well as the properties and applications of common dental materials in general practice. Moreover, how to determine the most suitable material to be used on a case to case basis and how to critically evaluate the validity of claims related to the benefits or advantages of new dental materials will be discussed.

## The 2<sup>nd</sup> Quarter of 2019 – Module Details

### *Aesthetic Therapy*

Module Code: CP14

### *Speaker: Dr CHAN Hung Chiu Kingsley*

Specialist in Prosthodontics

BDS, MDS, FRACDS, MSc (Implant Dent) (HK), Adv Dip Prosth (HK), MPros RCSEd, FCDSHK (Pros), FHKAM (DS),

Dr Chan is a specialist in Prosthodontics, qualified at the University of Hong Kong. He also achieved Master of Science in Implant Dentistry at HKU, Membership in Restorative Dentistry (Prosthodontics) at the Royal College of Surgeons of Edinburgh, and Fellowship at the Royal Australasian College of Dental Surgeons. He is the director of a multidisciplinary clinic founded with his specialist team in 2008. His scope of practice includes implant therapy, restorative dentistry, and prosthodontics. Dr Chan is a part-time Clinical Lecturer for the undergraduate and postgraduate curriculums at the University of Hong Kong since 2005.

Date & Time : 14 April 2019 (Sunday) 11:45 am-12:45 pm and 14:00 -15:00 pm

Venue : Rooms 903-4, 9/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Language : English

CPD Credit : HKDA CPD hours: 2, DCHK CPD points: 2, CDSHK CME points: 2 (Cat A)

### **Synopsis**

The value of a smile is important and a powerful communication tool that influences significantly on one's impressions. The impact is not limited to aesthetics, but also on facial expressions, masticatory function, and phonetics.

A healthy smile represents a combination of perceived "beauty" and "health." The challenge for the modern dentist is to balance the aesthetic and functional objectives, and seek to achieve the best result through minimally invasive dental procedures that respect the biological parameters.

This lecture will put together the concepts related to dental aesthetics, explaining them from both academic and practical point of view.

## The 2<sup>nd</sup> Quarter of 2019 – Module Details

### *Rehabilitative Therapy*

Module Code: CP12

### *Speaker: Dr WAN Kong Yuk Annie*

Specialist in Prosthodontics

BDS, MDS, Adv Dip Prosth (HK), MPros RCSEd, FCDSHK (Pros), FHKAM (DS),

Dr Wan is a Specialist in Prosthodontics. She graduated from The University of Hong Kong in 1992 and received the Master Degree in Clinical Dentistry in Prosthodontics from The University of London UK and Master degree in Prosthodontics from The University of Hong Kong.

Dr Wan obtained Membership in Prosthodontics from The Royal College of Surgeons of Edinburgh. She is a Fellow of Hong Kong Academy of Medicine, College of Dental Surgeons of Hong Kong and the International College of Dentists. Currently, she serves as a part-time lecturer at the Faculty of Dentistry, the University of Hong Kong and working as a prosthodontist in private sector.

Date & Time : 14 April 2019 (Sunday) 15:15pm - 17:30pm (including 15 mins break)  
Venue : Rooms 903-4, 9/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong  
Language : English  
CPD Credit : HKDA CPD hours: 2, DCHK CPD points: 2, CDSHK CME points: 2 (Cat A)

### **Synopsis**

Replacement of missing teeth are common in everyday dentistry. Both removable and fixed prosthesis can be an option. Detail assessment and accurate treatment planning is essential to establish a good foundation of prosthesis. The lecture will cover the biomechanical principle of fixed prostheses, design of removable partial dentures, the use of different types of dental biomaterials and the close collaboration with dental laboratory technician.

### The 2<sup>nd</sup> Quarter of 2019 – Module Details

#### *Geriatric Dentistry*

Module Code: CP16

#### *Speaker: Dr SO Hon Ching Frankie*

Specialist in Community Dentistry

BDS, MDS, FCDSHK (Com Dent), FHKAM (DS)

Dr Frankie So obtained the BDS (HK) degree in 1987 and the MDS (HK) degree (with distinction) in 1993. Dr So has studied under the Geriatric Dental Programme and the ELDERS group of the University of British Columbia in 2004, and later was involved in the development of the outreach dental services for the dependent older persons in residential care homes and day care centres in Hong Kong. He is now a registered specialist in Community Dentistry in Hong Kong. Dr So has delivered lectures related to geriatric dentistry in HKIDEAS and several overseas dental conferences.

Date & Time : 28 April 2019 (Sunday) 9:30am – 10:30am  
Venue : Function Room 1, 2/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong  
Language : English  
CPD Credit : HKDA CPD hours: 1, DCHK CPD points: 1, CDSHK CME points: 1 (Cat A)

#### **Synopsis**

Geriatric dentistry is not just dentistry for the older people. MGD should understand why older people may suffer more dental diseases and tooth loss, and hence be able to apply the principles of life-long prevention of dental diseases and preservation of natural teeth on clients of all age in daily practice. The principles underlying the Seattle Care Pathway will be introduced enabling clinicians to plan appropriate dental treatment for patients with different degree of frailty. The ultimate goal of geriatric dentistry is to extend healthy life expectancy and minimise the disease burden to patients towards their old age.

### The 2<sup>nd</sup> Quarter of 2019 – Module Details

#### *Hospital Dentistry*

Module Code: CP16

#### *Speaker: Dr KUM Chun Sing*

Specialist in Family Dentistry

BDS (HK), MGDS RCS (Edin), FRACDS, FCDSHK (Fam Dent), FHKAM (DS)

Dr Kum graduated from the University of Hong Kong in 1988. After working as a general dental practitioner for three years, he joined the Hospital Authority as a Hospital Dental Officer in 1992. He obtained his MGDS RCS (Edin) in 2000 and FRACDS in 2003, and was conferred Fellowships of FCDSHK(Family Dentistry) and FHKAM(Dental Surgery) in the same year. Dr. Kum is the Deputy Chairman of the Specialty Board of Family Dentistry and the Honorary Secretary of the Hong Kong Society of Family Dentistry. He is now working in the Department of Dentistry & Maxillofacial Surgery of the United Christian Hospital.

Date & Time : 28 April 2019 (Sunday) 10:45am – 12:30pm (including 15 mins breaks)  
Venue : Function Room 1, 2/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong  
Language : English  
CPD Credit : HKDA CPD hours: 1.5, DCHK CPD points: 1.5, CDSHK CME points: 1.5 (Cat A)

#### **Synopsis**

Patients are referred to hospitals for hospital dental treatments due to a wide range of reasons. In fact, many of them can be managed in general practice with minimal risk. The lecture will give an overview of how these patients are managed in a hospital setting, hoping to provide information on making prudent hospital referral so that timely and appropriate service can be received by patients in need.

**The 2<sup>nd</sup> Quarter of 2019 – Module Details**

***Special Needs Dentistry***

Module Code: CP16

***Speaker: Dr HUI Kenneth Kwok Kuen***

Specialist in Paediatric Dentistry

BDS (University of Newcastle Upon Tyne, U.K.)1981

MSc (University of London, U.K.)1989

FHKAM (Dental Surgery) 1993

FCDSHK (Paediatric Dentistry) 2000

Dr Kenneth Hui was awarded his BDS from the University of Newcastle Upon Tyne, U.K in 1981 and his MSc, from the University of London in 1989. He became a Fellow of the Hong Kong Academy of Medicine and Fellow of the College of Dental Surgeons of Hong Kong in the Specialty of Paediatric Dentistry respectively in 1993 and 2000. Dr Hui is currently working in the Prince Philip Dental Hospital as a Senior Dental Officer.

Date & Time : 28 April 2019 (Sunday) 14:00pm – 16:45pm (including 15 mins breaks)  
Venue : Function Room 1, 2/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong  
Language : English  
CPD Credit : HKDA CPD hours: 2.5, DCHK CPD points: 2.5, CDSHK CME points: 2.5 (Cat A)

**Synopsis**

Special Care Dentistry is already a specialty among the many fields of dentistry, in many overseas countries, but not in Hong Kong yet.

Dr Hui is a veteran dentist who has an unflinching passion working for patients with special needs for many years. He witnessed many dental personnel starting off with tremendous enthusiasm to serve these special care patients, but not all of them could sustain and be consistent to serve these patients for an extended period of time.

Like a little child attends the first dental appointment and starts crying on entering the surgery because of "dental-phobia", a few dental personnel might have similar "special-care-patients-phobia" and decline to provide treatment for them.

If we can spend the time to understand their medical, psychological, physical and social conditions better, together with some management techniques, and address to their dental needs, more than minority of these special need patients can be handled in a normal dental setting.

Dr Hui will take this opportunity to share with you his limited knowledge in this field, and hopefully enough information to encourage you to take up the challenge to manage, may be a few of them, if they knock at your clinic door one day.

(Remarks: In 2015, Dr Hui was recommended to, and appointed by, Royal College of Surgeons of Edinburgh, as one of their examiners in the Membership Examination in Special Care Dentistry, for a duration from 2015 to 2017. He is currently responsible in the training course in Special Care Dentistry in Prince Philip Dental Hospital.)

**MEMBERSHIP IN GENERAL DENTISTRY (MGD) TRAINING PROGRAMME 2018-2020**  
**The 2<sup>nd</sup> Quarter of 2019 – Module Details**

***Quality Assurance and Ethics***

Module Code: EDP3/SDP4

***Speaker: Dr LEE Kin Man***

Specialist in Family Dentistry

BDS, PDipDS (HK), DGDP (UK), MGDS RCSEd, FCDSHK (Family Dentistry),

FHKAM (Dental Surgery)

Dr Raymond Lee graduated with Bachelor of Dental Surgery (BDS) from the University of Hong Kong (HKU) in 1987. Dr Lee was the ex-chairmen of the Committee of General Dentistry and the Specialty Board in Family Dentistry of CDSHK. He is currently the Chairman of the Dental Council of Hong Kong.

Date & Time : 26 May 2019 (Sunday) 9:30 am - 5:00 pm

Venue : James Kung Meeting Room, 2/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Language : English

CPD Credit : HKDA CPD hours: 6, DCHK CPD points: 6, CDSHK CME points: 6 (Cat A)

**Synopsis**

Quality and Ethical delivery of treatment are the two important pillars for good patient care. In this module, the speaker will touch on

1. Basic concepts of Quality Assurance in Dentistry
2. Basic concepts in Ethics and its application
3. Risk management
4. Complaint Handling

# MEMBERSHIP IN GENERAL DENTISTRY (MGD) TRAINING PROGRAMME 2018-2020

## The 2<sup>nd</sup> Quarter of 2019 – Module Details

### *Oral Medicine, Oral Pathology and Oral Microbiology*

Module Code: CP8

#### *Speaker: Dr CHOW Lop Keung Raymond*

Specialist in Oral & Maxillofacial Surgery

BDS HK, MDS HK (Oral & Maxillofacial Surgery), MOSRCS (Edin), FDSRCS(Edin), FDSRCPS(Glasgow), FHKAM (Dental Surgery), FCDSHK(OMS)

Dr Raymond Chow obtained his Bachelor of Dental Surgery from University of Hong Kong in 1998 and started his Oral & Maxillofacial Surgery training in 1999. He joined Faculty of Dentistry of the University of Hong Kong as Assistant Professor after his master degree in OMFS. He is also the Editorial Advisory Member of the Quintessence Asia Pacific Edition Journal. He has published various articles in local newspapers and international journals. His special interest includes orthognathic surgery, dental implantology such as computer guided implant surgery, immediate implant in esthetic zone, zygomatic implants and immediate loading of full edentulous arch. He has been lecturing and conducting various workshops on Guided Implant Surgery in Asia.

Date & Time : 23 June 2019 (Sunday) 9:30 am – 12:30 pm  
Venue : Rooms 903-4, 9/F, HKAM Jockey Club Building,  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong  
Language : English  
CPD Credit : HKDA CPD hours: 3, DCHK CPD points: 3, CDSHK CME points: 3 (Cat A)

### **Synopsis**

Oral medicine and oral pathology are one of the largest scopes in Dentistry and these include diseases involving both the hard (cysts of the jaws) and soft tissues (oral mucosal lesions) of the oral cavity. The dental practitioners are often the first line health care workers who encounter these lesions. Proper diagnosis and early referral are essential in some of the cases. In addition, patients who have various medical conditions or various medical inventions, e.g. anti-coagulant or bisphosphonate, could sometimes complicate our dental treatment, i.e. special precautions are usually required. This seminar will discuss the diagnosis and management of various common oral pathologies and mucosal diseases. An update on medical problems related to dentistry will also be given.
