

# MEMBERSHIP IN GENERAL DENTISTRY TRAINING PROGRAMME 2015 - 2017

Dear HKDA members,

Subsequent to the successful completion of the Membership in General Dentistry (MGD) training programme 2012-2014, The College of Dental Surgeons of Hong Kong (CDSHK) and Hong Kong Dental Association (HKDA) came to an agreement in March 2015 for HKDA to be the administrator of the Membership in General Dentistry (MGD) training programme 2015-2017.

The training programme is mainly designed to prepare the MGD trainees for the MGD Part I and Part II examinations. It is a competence-based programme according to the guidelines of accreditation and training in MGD. For further details of the training programme, please refer to CDSHK's website ([www.cdshk.org](http://www.cdshk.org)).

The training programme is module-based, consisting of CGD (Committee of General Dentistry) accredited lectures and workshops on clinical practice and essentials of dental practice on General Dentistry. There are some supporting programmes to guide trainees in examination preparation and they can be useful to interested practitioners.

Dental colleagues who are not CDSHK trainees may also enroll in individual modules at a fee of HK\$1,200 per module. For enrolment, please complete the enrolment form and submit it together with payment to HKDA Secretariat by the specified deadline.

Dr Haston Liu W M  
Chairman, Committee of General Dentistry  
The College of Dental Surgeons of Hong Kong

Dr Kenny Lau K K  
Chairman, General Dentistry Committee  
Hong Kong Dental Association

# Provisional Program Content of MGD Training Programme 2015-2016

Date & Time	Module Code	Module Topic	Speaker	Duration (Hours)
20 Sep 2015 (Sun) 10:00am - 12:30pm	CP1	Treatment Planning Considerations in General Dentistry	Dr Haston LIU Wai Ming	2

## Dental Care in Elderly

Module Code: CP16

### Speaker: Dr Frankie SO Hon Ching

BDS(HK), MDS(HK), FHKAM(Dental Surgery),  
FCDSHK(Community Dentistry)

Dr Frankie So obtained the BDS(HK) degree in 1987 and had working experience in private practice, Prince Philip Dental Hospital and NGO dental clinics. With interest in dental public health being developed in these working experiences, he took the master course and obtained the MDS(HK) degree (with distinction) in 1993 in Hong Kong before joining the Department of Health in the same year. He is now a registered specialist in Community Dentistry in Hong Kong.

During the years in the government dental service, Dr So has worked in the School Dental Care Service, General Dental Service and at the head office of Government Dental Service. He was the leader of the team responsible for Oral Health Survey 2011 on the group of long-term care service users.

Dr So has attached to the Geriatric Dental Programme and the ELDERS group of the University of British Columbia in 2004 to study their experience in research and services to the frail older people living in residential care homes. He participated in the 'Pilot Project on Outreach Primary Dental Care Services for the Elderly in Residential Care Homes and Day Care Centres' implemented by the Food and Health Bureau in 2011. The Pilot Project was turned into a regular service 'Outreach Dental Care Programme for the Elderly' (ODCP) administered by the Department of Health in 2014. Dr. So is now the Senior Dental Officer-in-charge of the ODCP Management Unit.

Date & Time : 24 April 2016 (Sunday) 9:30am -12:30pm

Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Fee : HK\$1,200 (HKDA member) / HK\$1,500 (non-HKDA member)

Language : English

CPD Credit : HKDA CPD hours: 3 ; DCHK CPD points: 3 ; CDSHK CME points: 3 (Category A)

Synopsis : Age per se should not be a determining factor in dental treatment planning, and therefore more sophisticated or expensive dental treatment that may improve an older patient's oral health should not be ruled out simply because of the patient's high chronological age.

MGD should understand why older people may suffer more tooth loss, and hence be able to apply the principles of life-long prevention of dental diseases and preservation of natural teeth on clients of all age in daily practice. The ultimate goal is to extend healthy longevity and minimise the disease burden to people towards their old age.

MGD should be able to participate in the multi-disciplinary care team in providing quality and seamless dental care to older people along the spectrum of frailty.

MGD should have thorough understanding of the principles underlying the Seattle Care Pathway, be able to consider social history and subjective expectations of older people, and be able to apply ethical principles in arriving at a client-centred dental treatment plan.

# The 2<sup>nd</sup> Quarter of 2016 – Module Details

## Community Involvement

Module Code: EDP8

### Speaker: Professor Edward LO Chin Man

Specialist in Community Dentistry  
BDS(HK), MDS(HK), PhD(HK), FCDSHK(Community Dentistry),  
FHKAM(Dental Surgery)

Professor Edward Lo is Professor of Dental Public Health in the Faculty of Dentistry of the University of Hong Kong. He also holds a number of honorary and visiting professor positions in major dental schools in China. He is the chairman of the Specialty Board of Community Dentistry in the College of Dental Surgeons of Hong Kong. Professor Lo is a renowned expert in oral epidemiology, preventive dentistry and community dentistry and has given invited presentations in a number of major international dental conferences and written more than 200 scientific journal articles and book chapters.

Date & Time : 22 May 2016 (Sunday) 9:30am -12:30pm

Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Fee : HK\$1,200 (HKDA member) / HK\$1,500 (non-HKDA member)

Language : English

CPD Credit : HKDA CPD hours: 3 ; DCHK CPD points: 3 ; CDSHK CME points: 3 (Category A)

Synopsis : There are different types of oral health care system in different countries, and Hong Kong, as a Special Administrative Region in China, has its own unique system. The behaviours of both the oral health care providers and consumers are influenced by the structure, organization, and financing of the oral health care system. The first part of the presentation will describe the current oral health care system in Hong Kong. The activities and role of the oral health care providers in the public and private sectors will be described, as well as the latest findings on the oral health related behaviours and status of the people in Hong Kong.

The second part of the presentation will focus on the effectiveness of various kinds of preventive oral health interventions, especially those which can be implemented in community-based programmes. The latest clinical evidence from systematic reviews will be presented. The role of dental profession in promoting the oral health of the population, with particular focus on the situation in Hong Kong, will be discussed.

## Oral Medicine, Oral Pathology and Oral Microbiology

Module Code: CP8

### Speaker: Dr Raymond CHOW Lop Keung

BDS HK, MDS HK (Oral & Maxillofacial Surgery), MOSRCS (Edin),  
FDSRCS (Edin), FDSRCPS (Glasgow), FHKAM (Dental Surgery),  
FCDSHK (OMS)

Dr Raymond Chow obtained his BDS in the University of Hong Kong in 1998 and started his training in Oral & Maxillofacial Surgery in 1999. He joined Faculty of Dentistry of the University of Hong Kong as Assistant Professor after he has finished his master degree. He is currently one of the consultants in the Branemark Osseointegration Centre, Hong Kong; the Oral & Maxillofacial Surgery Specialist and Honorary consultant of the Sanatorium & Hospital Hong Kong; Honorary Associate Professor of the University of Hong Kong and Part-time Clinical Lecturer of the Queen Mary Hospital, Honorary treasurer of the Hong Kong Association of Oral & Maxillofacial Surgeons and the present chairman of the Hong Kong Society for Sedation and Anesthesia in Dentistry.

He is also the Editorial Advisory Member of the Quintessence Asia Pacific Edition Journal. He has published various articles in local and international journals and his special interest includes Cone Beam CT 3D imaging, orthognathic surgery, dental implantology particularly in esthetic zone and immediate loading of full edentulous arch.

Date & Time : 26 June 2016 (Sunday) 9:30am -12:30pm

Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Fee : HK\$1,200 (HKDA member) / HK\$1,500 (non-HKDA member)

Language : English

CPD Credit : HKDA CPD hours: 3 ; DCHK CPD points: 3 ; CDSHK CME points: 3 (Category A)

Synopsis : Oral medicine and oral pathology are one of the largest scopes in Dentistry and these include diseases involving both the hard (cysts of the jaws) and soft tissues (oral mucosal lesions) of the oral cavity. The dental practitioners are often the first line health care workers who encounter these lesions. Proper diagnosis and early referral are essential in some of the cases. In addition, patients who have various medical conditions or various medical inventions, e.g. anti-coagulant or bisphosphonate, could sometimes complicate our dental treatment, i.e. special precautions are usually required. This seminar will discuss the diagnosis and management of various common oral pathologies and mucosal diseases. An update on medical problems related to dentistry will also be given.

# The 2<sup>nd</sup> Quarter of 2016 – Module Details

## Management of Trauma in Deciduous and Permanent Dentition

Module Code: CP15

### Speaker: Dr Adam AU Hung On

Specialist in Paediatric Dentistry,  
BDS(HK), FRACDS, M Paed Dent RCSEd, MRACDS (Paed),  
M Paed Dent RCPS (Glasg), FDS RCSEd, FCDSHK (Paed Dent),  
FHKAM (Dental Surgery)

Dr Adam Au had received BDS degree in the University of Hong Kong in 1993. He had obtained the Fellowship of Royal Australasian College of Dental Surgeons in 2000 and the Diploma of Membership in Paediatric Dentistry, Royal College of Surgeons of Edinburgh in 2001. Besides, he had awarded the Fellow of the College of Dental Surgeons of Hong Kong (Paediatric Dentistry) and the Fellow of the Hong Kong Academy of Medicine in 2004; the Membership in Paediatric Dentistry, Royal Australasian College of Dental Surgeons in 2011; and the Fellowship of Royal College of Surgeons of Edinburgh in 2013. Dr Au had recently awarded the Diploma of Membership in Paediatric Dentistry, Royal College of Physicians and Surgeons of Glasgow. He has been in private practice since early 2008. He also holds the post of part-time clinical lecturer in the Paediatric Dentistry and Orthodontics for the post-graduates, and is currently the Honorary Treasurer of the Hong Kong Society of Paediatric Dentistry.

Date & Time : 26 June 2016 (Sunday) 2:00pm-4:00pm

Venue : G/F, Lim Por Yen Lecture Theatre, HKAM Jockey Club Building  
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Fee : HK\$1,200 (HKDA member) / HK\$1,500 (non-HKDA member)

Language : English

CPD Credit : HKDA CPD hours: 2 ; DCHK CPD points: 2 ; CDSHK CME points: 2 (Category A)

Synopsis : Injury to both the primary and permanent teeth and the supporting structures is one of the most common dental problems seen in children. The management of dento-alveolar trauma in children is distressing for both child and parent and often difficult for the dentist. Trauma to the dentition should always be considered an emergency situation. It occurs frequently and results in functional and aesthetic disturbances accompanied by concern from both patient and parent. The dentist's responsibility is to act objectively and efficiently in such a situation.

The children should be carefully assessed regarding treatment needs before commenting to parents because many cases are not as bad as they first appear. Initial reassurance to both parent and child is of great value. Trauma not only compromises a previously healthy dentition but may leave a deficit that also affects the self-esteem and quality of life and commits the patients to lifelong dental maintenance.

After this lecture, attendees should be able to describe and identify various types of traumatic injuries to primary and permanent teeth and their management. In addition, attendees should provide appropriate urgent dental treatment of traumatic dental injuries and knowing when to refer to a specialist or medical practitioner based on their clinical assessment.

# MGD Training Program – The 2<sup>nd</sup> Quarter of 2016

## Enrolment Form for non-MGD Trainees

### Deadline for submission: One week before the event date

To: Ms Vicky Choi, HKDA Secretariat  
 8/F., Duke of Windsor Social Service Building, 15 Hennessy Road, Wanchai, Hong Kong  
 (Tel: 2528 5327 Fax: 2529 0755)

I would like to enrol in the following module(s) of the 2<sup>nd</sup> Quarter of 2016:

Date & Time	Module Topics & Speakers	Module Code	Enrolment Deadline	Fee
24 Apr 2016 (Sun) 9:30am – 12:30pm	<b>Dental Care in Elderly</b> <i>Dr Frankie SO</i>	CP16	16 Apr 2016	<input type="checkbox"/> HK\$1,200 (HKDA member)/ <input type="checkbox"/> HK\$1,500 (non-HKDA member)
