

MEMBERSHIP IN GENERAL DENTISTRY TRAINING PROGRAM 2009 - 2011

Dear HKDA members,

In July 2009, HKDA and CDSHK came to an agreement for HKDA to be the administrator of the Membership in General Dentistry (MGD) training program 2009-2011. The program is supported by various specialist societies which are accredited CPD providers of the Dental Council of Hong Kong (DCHK).

The training program is mainly designed to prepare the MGD trainees for the MGD Part I and Part II examinations. It is a competence-based program according to the guidelines of accreditation and training in MGD. For further details, please refer to CDSHK's website (www.cdshk.org).

The training program is module-based, consisting of CGD (Committee of General Dentistry) accredited lectures and workshops on clinical practice and essentials of dental practice on General Dentistry. There are some supporting programs to guide trainees in examination preparation and they can be useful to interested practitioners.

The modules are useful to colleagues who aspire to keep themselves abreast of the contemporary practice of General Dentistry and those who may wish to enroll as trainees in the next diet of examination. The credit points carried in completing the program will be counted as part of the requirements of the MGD training and examination. For further details, please refer to 'A Candidate Guide to MGD Training' at CDSHK's website (www.cdshk.org).
