

Spring 2017

President's Message

Dear Fellows & Members,

It is indeed a great honour to be elected as President of the College for the next 12 months. I must thank my predecessor, Dr S K Chan, who had led the College in an exemplary fashion for the last 2 years and has passed onto me an institution in such rude health.

In December last year, the College Council welcomed Dr Raymond Y L Mak, joining the Council as a new member and the returning Council Members - Dr Rony S Y Cho, Dr Daniel T S Fang, Dr Katherine C M Leung, Dr Edmond H N Pow and Dr Ricky W K Wong. I would like to take this opportunity to thank Dr Stanley M L Lai, who did not stand for re-election last November, for his sterling work as the Chairman of the Scientific Meetings Committee from 2015-17.

At the College Conferment Ceremony held on 06 November 2016, Honorary Fellowship of our College was bestowed upon Professor Esmonde F Corbet for his dedication and many contributions to undergraduate and postgraduate dental educations and specialist training in Hong Kong since 1980. At the same ceremony, 17 fellows from 7 specialties and 22 members were admitted.

January this year marked the beginning of a new 3-year cycle of the HKAM CME/CPD Programme for our fellows and MGD members. In response to the HKAM's desire to see all fellows obtaining less passive CME/CPD points, the maximum number of recognized passive CME/CPD points for our College fellows is 70 points and for our MGD members, 47 points in this current cycle.

President's Message

Internationally, we are fully engaged with our sister colleges. Our College and the Royal College of Surgeons of Edinburgh have organised conjoint Membership/Intermediate examinations for 20 years for our trainees from 6 specialties. In the Specialty of Community Dentistry, 2 diets of the MRACDS(DPH)/Intermediate examination with the Royal Australasian College of Dental Surgeons (RACDS) had already taken place. Our relationship with RACDS also involves training and examination of general dental practitioners via our Membership in General Dentistry programme, which has been conjoined with the MRACDS (GDP) examination since the 2012-14 diet.

The prime function of the College is the training of dental specialists to cater for the dental needs of the Hong Kong public. To do so, 8 specialist training pathways have been established since the inception of the College. We are tasked with the organization and smooth running of these pathways through the Education and Examination Committee and the respective Specialty Boards. As echoed by my predecessor, Dr S K Chan, the College also has to maintain the standards of the training programmes. This is of paramount importance and the College has the prerogative to voice out our concerns, if for whatever reasons, the standards are likely to be compromised.

Wishing Everyone a Healthy and Happy Year of the Rooster!

Dr Robert P Y Ng

Scientific Meetings

Joint Scientific Meeting, 20-21 November 2016

Last year, our College joint hands with the Faculty of Dentistry of the University of Hong Kong and the Hong Kong Dental Association in the organization of the **2016 Hong Kong International Symposium in Peri-implantitis** held from 20 to 21 November 2016 at the Prince Philip Dental Hospital.

Three prominent scholars and experts in periodontology and implant dentistry were invited: Professor Joerg Meyle from Germany, Professor Stefan Renvert from Sweden and Dr Jean-Louis Giovannoli from France. The one-day symposium on the first day addressed the increasingly challenging issue of peri-implantitis. Topics included:-

- ❖ Epidemiology and pathogenesis of peri-implantitis
- ❖ Can we prevent peri-implantitis? Patient-related factors
- ❖ What types of patients are more likely to develop peri-implantitis diseases? Patient and site related risk indicators
- ❖ Diagnosis & treatment strategy (including early infections, retrograde peri-implantitis)
- ❖ Initial treatment planning: To keep or remove the implant. Is non-surgical treatment useful?
- ❖ Implant therapy in periodontitis patients
- ❖ Soft tissue management around implants
- ❖ Surgical Therapies I & II: Regenerative approach
- ❖ Surgical Therapy III: Resective approach
- ❖ Maintenance, biofilm management and long-term results of peri-implant treatment

Though it was a long day, the symposium was enthusiastically attended by 128 participants.

The half-day hands-on masterclass course in the next morning attracted 41 participants who had also attended the one-day symposium to acquaint with firsthand experience of implant placement and crater preparation, surface decontamination and surgical management. It was indeed an exceptional opportunity for participants to learn and gain valuable knowledge and know-hows from the three masters in periodontology and implant dentistry.

Scientific Meetings

Scientific Meetings

Spring Scientific Meeting, 21 May 2017

What is one thing in Dentistry that *everyone* would have experienced, wish *someone* else who would have instead, and *no one* wants to talk about willingly?

Challenges.

Stay tune for the upcoming CDSHK Spring Scientific Meeting. The theme is "Challenges in Dentistry ---- How would we best manage them?"

The presentation will be structured in a way that would appeal to dentists who are not necessarily specialists in that particular field, with practical tips and hints in handling such cases in the dental office. The topics range from dealing with Endodontic failure, Periodontal complications, difficulties in Oral Surgical procedures, to managing the "difficult" patient.

Treating complications is challenging enough. It is equally important to avoid such occurrences with appropriate assessment and correct diagnosis. The dilemma in dental age assessment in Paedodontics and "hidden dangers" in Orthodontics will be presented.

So mark your diary on 21st May. More details will follow. As this Spring Scientific Meeting will be held at Lecture Theatre I, Prince Philip Dental Hospital, there is limited seating. Kindly send in the form early to avoid disappointment.

CME/CPD Award and Administration

The following changes are applicable to the 2017-2019 cycle which is effective from 1 January 2017.

Self-arranged Study Group

Self-arranged study group in the form of experience sharing for clinical dental cases is accepted as a form of CME/CPD activity. The size of the group should be kept between 4 and 8 participants. Only CDSHK Fellow Specialists / MGD Holders / Higher Trainees can gain CME/CPD credits under this category of activity. Participants must include at least 1 Fellow and at least 3 other participants who should be the members of the College (i.e. Fellows / MGD Holders / Higher Trainees). Non pre-approved organization should seek prior approval from the College. During the conduction of the activity, rules governing the confidentiality of patient information must be observed.

Submissions of case summaries together with the attendance form are mandatory for consideration of CME/CPD credits. A maximum of 1 point may be awarded for each activity and study group activities may be awarded a maximum of 5 points per 3-year cycle for each applicant.

Administration for CDSHK Higher Trainees

Upon recommendation of the Education & Examination Committee, the College Council has resolved that it is mandatory for Higher Trainees of ALL specialties to obtain a minimum of 30 CME/CPD points per year so as to fulfil CDSHK Membership requirement and satisfactory annual trainee assessment. In general, CME/CPD requirement before the exit examination of that year will be counted on a pro-rata basis up to the end of the month before the final date of application for the exit examination. However, it will also be subject to the actual requirement of each Specialty.

Every Trainee should keep a record of his/her own CME/CPD activities and should provide evidence of such activities in order to facilitate the College Secretariat to issue an annual report as part of his/her Higher Training annual assessment. A standardized table in Excel format will be sent to every trainee via email for record of such activities. Annual subscription for CDSHK CME/CPD administration will be waived.

An updated version of the College's Principles and Guidelines on CME and CPD is available at: <http://www.cdshk.org/Forms/CME/CDSHK%20P&G%202017-2019.pdf>. If there are any queries on the CME/CPD programme, please do not hesitate to contact the College Secretariat at 2871 8732 or email to cme_cpd@cdshk.org.

HKAM Council Dinner with Distinguished Young Fellows

Since 2013, the Academy Council has initiated a dinner gathering with distinguished young fellows from constituent Colleges so to recognize their achievements and give an opportunity for them to meet and share their experiences with HKAM's Council Members and distinguished young fellows of sister Colleges.

Each College is invited to nominate 1 or 2 distinguished individuals who are (according to priority):

1. Young Fellows (who have obtained their fellowship within 5 years); or
2. Potential Fellows who are still trainees at the moment.

Each year, the College Council invites every specialty board to make one nomination, if any. The major selection criteria are based on the nominee's achievements and contributions to his/her respective specialty. Among all the nominees, the College Council selects one or two Fellows/Trainees to attend the dinner.

In the past years, the following nominees had taken part in this meaningful occasion:-

1. Dr CHOI Wing Shan, Winnie (Oral & Maxillofacial Surgery), 2013
2. Dr HO King Lun, Dominic (Periodontology), 2013
3. Dr WAN Kong Yuk Annie (Prosthodontics), 2014
4. Dr TSE Chee Choong Micheal (Endodontics), 2015
5. Dr LEE Hui Cheng, Angeline (Endodontics), 2016
6. Dr LEE Hiu Man Gillian (Paediatric Dentistry), 2016

Specialty Education and Training Development Fund (SETDF)

The aim of the Specialty Education and Training Development Fund (SETDF) is to encourage Specialty Boards and the Committee in General Dentistry (CGD) to organize or conduct education and training activities for trainees, fellows, members, and/or trainers.

The second 2-year cycle of application for the SETDF had started in April 2016, and a maximum accumulative amount of HKD30,000 will be allocated to each specialty/CGD. So far, the Specialty Boards in Community Dentistry, Endodontics, Periodontology and Prosthodontics had organized their first functions under this fund on 26 April 2016, 14 July 2016, 10 October 2014 and 3 July 2015 respectively.

The specialty boards give positive feedback and view that the fund provides an opportunity to nurture trainer-trainee relationship which is essential for building a stronger team of trainers as well as encouraging trainees along the road to becoming a specialist.

Towards the close of the funding application, the College Council will look into the possibility of extending the period of provision for the SETDF and will keep the Specialty Board/CGD Chairmen updated.

CDSHK Scholarship

The College of Dental Surgeons of Hong Kong Scholarship (“Scholarship”) has been set up to support Fellows admitted in or after the year 2012 and higher trainees in our specialist training pathways to participate in overseas training. Preference will be given to young Fellows, i.e. those who are admitted within the previous 5 years.

The maximum amount of the Scholarship will be HK\$50,000 for the year 2017. The training programme will be self-arranged for duration of not more than 8 weeks and needs prior approval by the College Council. The Scholarship cannot be held in conjunction with any other award, grant or sponsorship that will give financial support for the same training.

Successful applicants will be required to write reflections about their training which will be published in the College Publication and they may be required to participate in some College activities in the subsequent year, for example, representing the College in some promotion functions, etc.

Application forms and details of the Scholarship can be obtained at our website at <www.cdshk.org>. Deadline for application is 31 July 2017.
