

Spring 2018

President's Message

Dear Fellows & Members,

Kung Hei Fat Choy!! On behalf of the College Council, I would like to wish all of you a prosperous and healthy Year of the Dog.

The College conducted a council election in November last year and the Council Members who stood for re-election were all re-elected. In the December Council Meeting, the Council welcomed a new Council Member, Dr Julianna CH Liew. Dr Sai Kwing Chan upon completion of his 12-year stint in the College Council, has left the Council. The College is indebted to Dr Chan for his dedication and wisdom throughout the past 12 years.

The Hong Kong Academy of Medicine celebrates its 25th Anniversary this year. A series of events has been lined up through the year to celebrate this important milestone. There will be a Medical Education Conference in May and an Anniversary Congress in December. In between, there will be a host of sporting events. An Inter-Collegiate Basketball Tournament is scheduled to be held from July to October, a Golf Tournament in October and a Running Competition in November. Further information will be available in the coming months. I will take this opportunity to recruit basketball players (fellows, members and trainees) for the College. For those who are interested, please contact Dr Tom Ho or the College Secretariat. We certainly need lots of young blood to participate in this physically demanding sports.

President's Message

As a result of our meeting with the RACDS President, Dr Patrick Russo and the CEO of the RACDS, Dr Karen Luxford in August last year, certain modifications were made to the latest Memorandum of Understanding (MoU) between our College and the Royal Australasian College of Dental Surgeons (RACDS), which would streamline the work of the Secretariat and the Committee of General Dentistry (CGD) in conducting the MGD programme. Furthermore, the amended MoU reflects the amount of the College's contributions to the MGD programme (2018-2020) in a financial manner. This MoU was signed by both parties at the end of last year, which enabled the continuation of our conjoint examination arrangement with the RACDS and to conduct the Conjoint MGD/MRACDS examinations for our MGD trainees by full examination. Recruitment of MGD trainees will commence in the near future.

For the MGD diet 2018-2020, Dr Bun Ka Yiu has been appointed as the Chairman of the Committee of General Dentistry (CGD). He has assembled a well-experienced and formidable team of CGD members to run the MGD programme and has the full backing of the College Council. The 2018-2020 diet is the fourth MGD diet to be held by the College, this diet is built on the success of the three previous MGD diets. The Chairmen of the CGD, Dr Raymond K M Lee (2009-2011) and Dr Haston W M Liu (2012-2017) and the CGD members (2009-2017) should all be acknowledged for their immense contributions.

The Spring Scientific Meeting is scheduled to be held on 27 May 2018 and the venue is Prince Philip Dental Hospital. Please mark it in your diary. I am sure the Chairman of the Scientific Meetings Committee, Dr Daniel Fang, and the committee members will organize an interesting programme of lectures for us.

Dr Robert P Y Ng

Scientific Meetings

Winter Scientific Meeting, 26 November 2017

2017 marked twenty years of collaboration between the College of Dental Surgeons of Hong Kong (CDSHK) and the Royal College of Surgeons of Edinburgh (RCSEd) in setting standards for dental specialist training in Hong Kong. Our College commemorated this historic friendship during the CDSHK Winter Scientific Meeting at the Academy of Medicine.

Dr Robert Ng, CDSHK President, with the presence of Professor William Saunders, RCSEd Immediate Past Dean of the Dental Faculty, kicked off and welcomed our audience to this memorable meeting theming “Setting Standards 20 years on: Together We Stand”. We had been privileged to have distinguished Fellows from both Colleges to be our speakers: Professor William Saunders on Endodontics, Professor Mark Thomason on Prosthodontics, Professor Lijian Jin on Periodontology and Dr John Ling on Orthodontics. The meeting attracted more than 250 participants with very positive feedbacks.

I would also like to take this opportunity to acknowledge the unceasing support of our sponsors: 3M Hong Kong Limited, GlaxoSmithKline Consumer Healthcare (HK) Ltd, KaVo Kerr Hong Kong and Nobel Biocare Asia Ltd, which had contributed to the success of the event.

Scientific Meetings

Spring Scientific Meeting, 27 May 2018

"One-winged angels cannot fly, but together they soar." *Dr Hannah*

This is the theme of the upcoming Spring Scientific Meeting, "Shared success through interdisciplinary collaboration". Through collective wisdom and proficiency from various specialties, we can offer optimal comprehensive approach for better patient care.

We are privileged to have a trio of Periodontist-Endodontist-Prosthodontist on the restoration of pink & white aesthetics; another trio of OMFSurgeon-Paedodontist-Orthodontist on the management of developmental syndromes.

Kindly mark in your diary for 27 May, at Lecture Theatre 1, the Prince Philip Dental Hospital. As there is limited seating capacity, please subscribe early to avoid disappointment!

CDSHK Scholarships

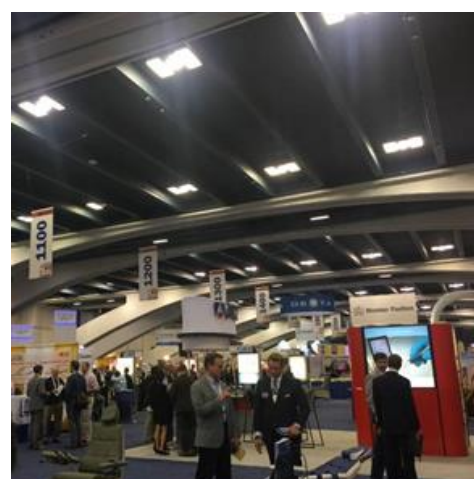

Dr Yee Hung LAW (Oral and Maxillofacial Surgery)

I was so grateful for the opportunity to visit the Oral and Maxillofacial Surgery Department, The University of Miami at Jackson South Community Hospital. Under the chief professor Dr Robert E Marx, who first published about medication related osteonecrosis of jaw, many cutting-edge clinical procedures including head and neck tumor surgery, trauma management, reconstructive jaw surgery, dental implants, cosmetic surgery and use of growth factors were observed throughout my visit. Dr Marx was especially dedicated to different aspects in reconstruction of the facial bone defects. He was heavily involved in research to use platelet-rich plasma (PRP) and bone morphogenic protein (BMP). New device for bone marrow and stem cell harvesting known as Marxman was developed by him specifically for oral and maxillofacial surgery.

After the hot and humid but scenic Miami on the east coast of United States, it's time to get a taste of the vibrant and cool San Francisco on the west coast. The

American Association of Oral and Maxillofacial Surgery annual meetings and scientific exhibition was held at San Francisco. It covered wide range of presentations and discussions in oral and maxillofacial surgery from dentoalveolar surgery to obstructive sleep apnea, orthognathic surgery and trauma management. It was a unique experience to participate as oral and maxillofacial surgeon from Hong Kong to meet oral and maxillofacial surgeons in the US and around the world to exchange ideas and continuing education.

CDSHK Scholarships

Visit to the various centers under the Oral and Maxillofacial Department, The University of California, San Francisco (UCSF) was the last part of the training. The Emeritus Professor Dr Anthony Pogrel and other faculties at the UCSF implant center and Mortiff Hospital provided a range of oral and maxillofacial surgery from implant surgery to pathology management. In addition, the visit to the Veteran Association (VA) Medical Centre and San Francisco General Hospital brought me an insight on the management of the patients as a whole, not just management of the diseases. Chair Oral and Maxillofacial surgeon Dr Rebeka Silva at the VA medical centre is specialized in managing temporomandibular joint (TMJ) problems by comprehensive treatment including Botox injection, splint therapy, physiotherapy to TMJ surgery and replacement.

I would like to take this opportunity to express my gratitude to the Scholarship Committee, CDSHK for granting me the CDSHK Scholarship 2017 and the unforgettable, valuable learning experience.

HKAM Council Dinner with Distinguished Young Fellows

Since 2013, the Academy Council has initiated a dinner gathering with distinguished young fellows from constituent Colleges so to recognize their achievements and give an opportunity for them to meet and share their experiences with HKAM's Council Members and distinguished young fellows of sister Colleges.

Each College is invited to nominate 1 or 2 distinguished individuals who are (according to priority):

1. Young Fellows (who have obtained their fellowship within 5 years); or
2. Potential Fellows who are still trainees at the moment.

Each year, the College Council invites every specialty board to make one nomination, if any. The major selection criteria are based on the nominee's achievements and contributions to his/her respective specialty. Among all the nominees, the College Council selects one or two Fellows/Trainees to attend the dinner.

In the past years, the following nominees had taken part in this meaningful occasion:-

1. Dr Winnie Wing Shan CHOI (Oral & Maxillofacial Surgery), 2013
2. Dr Dominic King Lun HO (Periodontology), 2013
3. Dr Annie Kong Yuk WAN (Prosthodontics), 2014
4. Dr Micheal Chee Choong TSE (Endodontics), 2015
5. Dr Angeline Hui Cheng LEE (Endodontics), 2016
6. Dr Gillian Hiu Man LEE (Paediatric Dentistry), 2016
7. Dr Mei Man CHONG (Oral & Maxillofacial Surgery), 2017
8. Dr LAI Ian Albert (Periodontology), 2017

Specialty Education and Training Development Fund (SETDF)

The aim of the Specialty Education and Training Development Fund (SETDF) is to encourage Specialty Boards and the Committee in General Dentistry (CGD) to organize or conduct education and training activities for trainees, fellows, members, and/or trainers.

The second 2-year cycle of application for the SETDF had started in April 2016, and a maximum accumulative amount of HKD30,000 will be allocated to each specialty/CGD. So far, the Specialty Boards in Community Dentistry, Endodontics, Paediatric Dentistry, Periodontology and Prosthodontics had organized their first functions under this fund on 26 April 2016, 14 July 2016, 16 November 2017, 10 October 2014 and 3 July 2015 respectively.

The specialty boards give positive feedback and view that the fund provides an opportunity to nurture trainer-trainee relationship which is essential for building a stronger team of trainers as well as encouraging trainees along the road to becoming a specialist.

Towards the close of the second cycle of funding application, the College Council will consider a new cycle of SETDF from April 2018 and will keep the Specialty Board/CGD Chairmen updated.

CDSHK Scholarship

The College of Dental Surgeons of Hong Kong Scholarship (“Scholarship”) has been set up to support Fellows admitted in or after the year 2013 and higher trainees in our specialist training pathways to participate in overseas training. Preference will be given to young Fellows, i.e. those who are admitted within the previous 5 years.

The maximum amount of the Scholarship will be HK\$50,000 for the year 2018. The training programme will be self-arranged for duration of not more than 8 weeks and needs prior approval by the College Council. The Scholarship cannot be held in conjunction with any other award, grant or sponsorship that will give financial support for the same training.

Successful applicants will be required to write reflections about their training which will be published in the College Publication and they may be required to participate in some College activities in the subsequent year, for example, representing the College in some promotion functions, etc.

Application forms and details of the Scholarship can be obtained at our website at <www.cdshk.org>. Deadline for application is 31 July 2018.
