President's Message

Dear Fellows and members,

Time flies. There have been a lot of activities going on over the past six months. In February, on behalf of the College, I attended the Spring Faculty Reception of LKS Faculty of Medicine, the Media Spring luncheon organized by HKAM and a seminar on LGBT organized by the Constitutional and Mainland Affairs Bureau.

On 28 Mar, I joined a dinner along with HKAM's representatives and other College Presidents hosted by Prof. Sophia Chan, the Secretary of Food and Health Bureau, discussing how the non-locally trained doctors and dentists could undertake the training programme of Colleges. Regarding dentistry, Prof. Chan was reminded that since there is no limited registration available yet in DCHK, all dentists should be fully registered in HK in order to become trainees of CDSHK.

Our Spring scientific meeting was successfully held on 5 May. The theme was "Evidence-based restorative dentistry" and I would like to thank all the international and local speakers as well as the members of the Scientific Meeting Committee which is chaired by Prof. W.K Leung.

On 2 July, I attended the plaque unveiling ceremony of the establishment of SZ-HK Specialist Training Centre which was located in the University of Hong Kong-Shenzhen Hospital (HKU-SZH). I also had a chance to discuss any potential collaboration between our College and HKU-SZH with Prof Homer Tso, the COS of Dental in HKU-SZH.

On 13 July, I attended the Inaugural Ceremony of Macao Academy of Medicine (MAM). While only a few medical doctors with oral and maxillofacial training are eligible to be the fellows of MAM at the moment, I was told that dentists in various subspecialties would be included in the near future.

In order to enhance professionalism and ethics among Fellows and trainees, HKAM has recently established a new committee named Professionalism and Ethics Committee to promote professionalism and ethics as well as ethical issues pertaining to the practice of specialty medicine and dentistry, public policy and other corporate activities. I would like to thank Dr. Law Yee Hung, Yolanda who represents our College to serve in the Committee from 2019-2022.

There is also a Social Subcommittee newly formed under the House Committee of HKAM and a series of social activities have already been organized from Aug 2019 to Mar 2020. I would like to thank Dr. Tom Ho who serves as one out of the 6 members of the Subcommittee.

Last but not the least, the 4th AMM-AMS-HKAM Tripartite Congress cum 53rd Singapore-Malaysia Congress of Medicine & Hong Kong Primary Care Conference 2019 will be held in Hong Kong on 6-8 December 2019. Please mark your diary.

Dr Edmond Ho Nang POW
President

New Fellows and Members

The following new Fellows and members will be conferred at the College Conferment Ceremony:

11 New Fellows:

Specialty	Name	
Community Dentistry	Dr CHAU Man Him	周文謙
Oral and Maxillofacial Surgery	Dr HUI Sheung Yu Bosco	許上宇
	Dr LAI Kar Yan Karen	黎家欣
	Dr SUEN Ka Shing	孫嘉誠
Orthodontics	Dr CHAN Wing Sze	陳詠詩
	Dr LEUNG Cindi Sing Yee	梁星儀
Paediatric Dentistry	Dr CHAU Tak Wing Selina	鄒德穎
	Dr FONG Kin Man	方健文
	Dr WONG Lok Wun Mildred	黃樂媛
	Dr YEUNG Patricia Melody	楊智敏
Periodontology	Dr LIU Hin Lam	廖軒楠

8 New Members:

Specialty	Name	
Endodontics	Dr NG Tai Yin Kelvin	伍泰然
	Dr WONG Wing Lam	黃詠琳
Paediatric Dentistry	Dr CHU Kit Ling	朱潔靈
	Dr HO Cheuk Yu	何卓如
Periodontology	Dr CHAN Yat Him	陳溢謙
	Dr FOK Melissa Rachel	霍慧心
	Dr TSE Ming Nga	謝明雅
	Dr WONG Hok Ling	黃鶴齡

Scientific Meeting

Spring Scientific Meeting - 5 May 2019 (Sunday)

“Evidence-based Restorative Dentistry” was the theme for this Spring Scientific Meeting. The lecture theatre at the Prince Philip Dental Hospital was packed with over 270 participants.

Professor Masashi Miyazaki, Director and Chair, Department of Operative Dentistry, Nihon University School of Dentistry started the day by providing an overview regarding basic technologies of direct restorative materials and their clinical effectiveness. He enriched his presentations by sharing video clips regarding handling of resin composites, demonstrating the full spectrum of

applications of the material in clinical practice. At the afternoon session, Prof. Miyazaki walked the audiences through the importance of various adhesive systems in clinical dentistry and in particular discussed their corresponding bonding durability.

Professor Michael F. Burrow, Discipline Coordinator, Operative Dentistry and Prosthodontics, The University of Hong Kong guided the evidence through current clinical evidence for longevity of resin composite and glass ionomer cement (GIC) restorations placed in load bearing cavities. He highlighted how contemporary changes were attempted to modify GICs for load bearing direct restoration. The

corresponding evidence was reviewed and suitability of particular types of GIC for specific defects in posterior teeth was presented.

Professor Yu-Kang Tu, Institute of Epidemiology and Preventive Medicine, College of Public Health, National Taiwan University commenced the afternoon session by providing the audience a clear update on the topic of evidence-based dentistry. Walking us through contemporary research, he clarified the importance of why rigorous study designs, sophisticated statistical analyses, and objective evidence translation were so important for evidence-based personalized dental care. The challenges of information explosion in the current digital era upon this subject were also covered.

The three distinguished speakers concluded the afternoon session over a Panel Discussion Chaired by Dr. Daniel Fang and myself. Many attendees enjoyed the intellectual exchanges until the last minute of this very successful one-day event.

Prof Wai Keung LEUNG
Chairman

The Expert Witness Workshop

The Expert Witness Workshop, held on 15 September 2019 from 2:30 to 5:30 pm, was well attended and received by 58 Fellows, Members / Higher Trainees and MGD holders. Dr Edward Fan, the first MGDS RCSEd holder in Hong Kong, now a barrister-in-law, shared his expertise about the role of an expert witness and some salient points in Court procedures. He also promised to share with us in more details about Expert Witness Report preparation in the future.

Dr Yiu Kai WONG
Chairman
Education & Examinations Committee

News for Fellows

Using QR Code to capture attendance

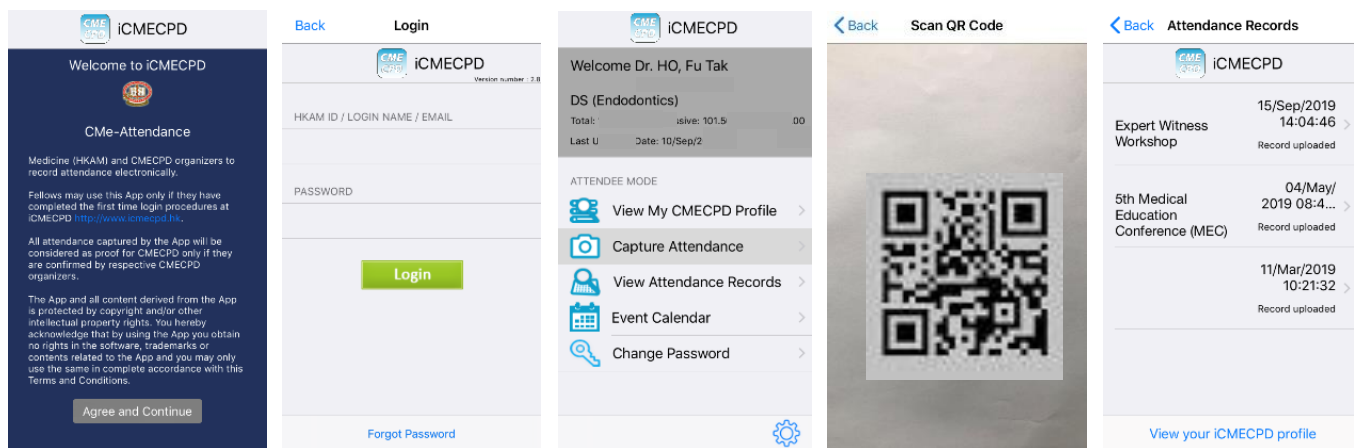

The HKAM has developed an iCMECPD mobile app to enhance its online service. Fellows can use the app to check their CME points and capture attendance. The CDSHK is going to use it for our selected meetings and workshops. Fellows are encouraged to download the App and try to use it. The App is available at Apple's App Store and Google's Play. Fellows may download the App by scanning the respective QR code below and install it in their smartphone, and follow the simple steps to log in.

HKAM Events – Fellows CONNECT

Fellows Get-Together is the first event which was organized by the Social subcommittee of the HKAM. More than 120 Fellows and Trainees from 15 Colleges met and shared the enjoyable moment. Apart from delicious food, four bands performed a brilliant music. And..... our Dental Band get the second most votes from the audience. Let us share our happiness to you!
