## PRESIDENT'S MESSAGE

Dear Fellows and Members,

Time flies and my second year of Presidency is approaching the end. The year 2021 has been full of challenges and uncertainties. With respect to the battle against the Covid-19 pandemic, though Hong Kong's mass vaccination programme has achieved reasonable success

and the number of locally infected cases remains very low, the world around us is facing a new surge of cases owing to the emergence of new variants. We still face tremendous threats and therefore many restrictive measures are still in place.

Recovering from the wearisome Legal Case and its judgment last year, the College has managed to continue our mission on education and training for dental specialists in Hong Kong. The Spring Scientific Meeting was held successfully in hybrid form (webinar and in-person attendance) on 23 May 2021 with over 500 participants. The Winter Scientific Meeting will be held on 7 November 2021 with topics including management of patients with cleft or craniofacial syndromes in the morning, and some interplay areas between Dentistry and Medicine in the afternoon. Another major event will be the Conferment Ceremony to be held on 21 November 2021 for all Fellows and Members admitted in 2020 and 2021. Do reserve your time to join these events.

Conjoint examinations with RCS Ed have come to a standstill these two years because of the Covid-19

pandemic. In June 2021, we had a video conference with Prof. Philip Taylor (Dean of the Faculty of Dental Surgery, RCS Ed) and Dr. Richard Cure (Convenor of Dental Education and Lead of Accreditation Activity) to discuss the future of the Dental Conjoint Examinations. Prof. Taylor deliberated that “Conjoint Examinations” in the UK only involve the restorative disciplines and are in connection with University-based postgraduate training programmes. While the College is not a University and because of the issues of Question Bank security and quality assurance of the examinations, the Faculty of Dental Surgery, RCS Ed had come to a decision that Conjoint Examinations outside the UK with other institutions would no longer be held. Rather, they decided to initiate a new accreditation process and those accredited institutions can participate in specialty Membership examinations solely run by RCS Ed. That means many specialties of the College have to conduct our own intermediate examinations. Moreover, we have to decide whether we will go for the accreditation process of RCS Ed or not, balancing the pros and cons of continuing such a ‘new’ relationship with RCS Ed.

In spite of all these new changes and challenges, the College managed to successfully conduct our own Intermediate Examinations in many specialties as well as respective Exit Examinations in the past two years. We managed to continue maintaining the standards of our examinations by inviting renowned external examiners to participate in various aspects such as evaluating and marking of examination questions, reviewing of examination formats and logistics, and conducting viva examinations via the Zoom platform. In addition, the new diet of MGD training program (2021-2023) has begun and the first lecture was smoothly conducted at the end of August 2021. Furthermore, CME application forms were updated to cater for both local and overseas webinar activities. The College Website was also enhanced and enriched to include more information on events and facilitate entry of CME/CPD records for higher trainees and MGD members.

Within several months after its inauguration since April 2021, the Dental Young Fellows Chapter has participated in various functions of the Young Fellows Chapter of HKAM and organized a webinar titled “More than Dentistry – an introduction to CDSHK Specialist Pathways” in July 2021 with more than 180 participants. More activities are being planned in the coming months.

H.E. Luccock once said, “No one can whistle a symphony. It takes an orchestra to play it.” There are various teams and Committees within the College and they work closely together to ensure sustainability of College business. Therefore, I would like to thank and pay tribute to all those who regard the College as their home and family and who have unreservedly sacrificed their time to serve.

Albert Einstein said, “in the midst of every crisis, lies great opportunity”, and the Chinese word for “crisis” can be represented as “Danger + Opportunity”. There are many challenges in front of us but I have full confidence that with unity, hope and perseverance, we shall overcome.

***Dr. WONG Yiu Kai***

# SCIENTIFIC MEETINGS COMMITTEE

## Spring Scientific Meeting - Dental Trauma Sedation in Private Healthcare Facilities

23 May 2021

After the coronavirus outbreak in the city appeared to be slowly stabilizing, the College decided to hold the Scientific Meeting in 'dual mode' for the first time. While over 480 attendants were able to enjoy the lectures at home through online video conferencing, this time, there were also around 40 physical attendants at the Pao Yue Kong Auditorium under stringent precautionary measures.

The theme of the morning meeting was dental trauma. It was our privilege to have our Fellows Professor Nigel King, Dr. Yolanda Law and Dr. Robert Ng, and also Plastic Surgeon Dr. Lawrence Liu to be our speakers. The lectures covered a broad spectrum of trauma management ranging from children to adults, root canals to clinical crowns, teeth to bone, intraoral to facial soft tissues and private clinics to public hospitals.

In the end of the lectures, there was a panel discussion about the management of a trauma case that was undergoing orthodontic treatment. It was led by our moderators Dr. Tom Ho and Dr. Julianna Liew.

In the afternoon, the focus was on sedation under the Private Healthcare Facilities Ordinance (PHFO). We were honoured to have Dr. Sharon Lee and Dr. John Low to be our speakers. Dr. Lee explained the set-up of day procedure centers that can perform sedation complying to the PHFO. Next, Dr. John Low talked about the science and his protocol of dental clinic-based MAC (Monitored Anesthesia Care). During the lectures, there was a lot of interaction between our speakers and our moderators, President Yiu Kai Wong and Dr. Haston Liu, who were the dental representatives of the advisory committee of PHFO.

I would like to thank our speakers, moderators, members of the CDSHK Scientific Meetings Committee and the Council, College Secretariat and the HKAM Technical Team for their collaborative efforts to make this webinar/physical meeting run smoothly. I would also like to thank the attendees of this meeting; we have received positive feedback and many contributory comments. We will use this experience to further improve our scientific meetings in the future. Finally, I would also like to acknowledge the support from our sponsors – 3M Hong Kong Limited, GlaxoSmithKline Consumer Healthcare (HK) Limited, MAC Sedation Center and Nobel Biocare Asia, which have played an important part in the success of the event.

# DENTAL YOUNG FELLOWS CHAPTER

## More than Dentistry - An Introduction to CDSHK Specialist Pathways 29 July 2021

The first event of our Dental Young Fellows Chapter, CDSHK was successfully held via the internet on 29<sup>th</sup> July. We aimed at introducing the CDSHK and the 8 specialties of the College and their specialist training pathways to young dental colleagues who are interested in devoting themselves to be future dental specialists. This 2-hour event attracted over 150 attendances through the Zoom platform that evening. We were very honoured to have invited Dr. Yiu Kai Wong, the President of CDSHK, and 8 Young Fellows to share aspects of their lives as dental specialists and their personal feelings while going through their pathways to pursue excellence. We sincerely hope that, through the event, the young dental colleagues could have a deeper understanding of the local specialist training environment and bring encouragement to them as well as the specialist trainees to pursue advanced dental training.

((L to R): Dr. Yiu Kai Wong (President, CDSHK),  
Dr. Yolanda Law (OMFS),  
Dr. Julian Cheung (Family Dentistry),  
Dr. Alex Chau (Community Dentistry),

Dr. Dominic Ho (Periodontology)

Dr. Ada Lo (Endodontics)

Dr. Walter Lam (Prosthodontics)

## CME SUBCOMMITTEE

The Dental Council of Hong Kong released a revised guideline on the Continuing Professional Development Programme for Practising Dentists for the 2020 - 2022 CPD Cycle in July 2021. To facilitate organizers and Fellows/Members to apply for both CDSHK and DCHK CME/CPD, the CME Subcommittee has revised the application forms for both local and overseas CME/CPD meetings. The forms will be used for both physical and online (live streaming) activities, and can be downloaded from the College website <http://www.cdshk.org/Forms/index.htm>

## Prevention of Pneumonia and Health Advice Respiratory Tract Infection

- Perform hand hygiene frequently
- Wash hands with liquid soap and water, and rub for at least 20 seconds
- When hands are not visibly soiled, hand hygiene with 70 to 80% alcohol-based handrub is effective
- After using toilet, put the lid down before flushing
- Wash hands thoroughly
- Spit into tissue and dispose of it properly
- Maintain drainage pipes properly and add water to the U-traps regularly
- Pour half a litre of water into each drain outlet every week
- Cover your mouth and nose with tissue paper when sneezing or coughing, dispose of soiled tissues into a lidded rubbish bin, then wash hands thoroughly
- If tissue is not available, may cough into clothes or upper sleeves
- When having a fever or respiratory symptoms, wear a surgical mask and seek medical advice promptly
- The coloured side/side with folds facing downwards should face outwards with the metallic strip uppermost
- Position the elastic bands around both ears
- Extend the surgical mask to fully cover mouth, nose and chin
- Mould the metallic strip over nose bridge, to fit snugly over the face
