

THE COLLEGE OF DENTAL SURGEONS OF HONG KONG

SPRING NEWSLETTER 2022

PRESIDENT'S MESSAGE

Dear Fellows and Members,

Kung Hei Fat Choi. I would like to wish you a very happy new year with good health, joy and prosperity.

It is my honour to be elected as the President of the College 2021-2022. I

must thank Dr WONG Yiu Kai who has led the Council in the past two years in an outstanding fashion. We welcome Dr CHAN Alex Wai Kwok, Dr HO Fu Tak, Prof LEUNG Wai Keung and Dr Jerome YU who have been elected or re-elected to the Council. At the same time, I am grateful to Dr HO Wai Mei and Dr LAW Yee Hung who have served on the Council for the past 9 and 3 years,

respectively; and have decided not to stand for re-election. Some Councillors and Fellows have taken up new positions in the Council and various committees of the College. We look forward to working closely together for the betterment of our College.

In the past two years, we have been facing unprecedented challenges due to the COVID-19 pandemic. As Hong Kong enters the fifth COVID wave, the number of new cases has reached a record high of several tens of thousand per day. With the infection widespread of COVID-19 in town, specialty training activities are disrupted to various extent. Nonetheless, it is hoped that the fifth COVID wave would come to an end soon and the specialty training can be conducted normally again when more people get vaccinated and are immune against the virus.

Apart from overseeing the structured and supervised training, the College, via the various Specialty Boards, conducts Intermediate and Exit Examinations for our trainees. Since conjoint Intermediate Examinations with the Royal College of Surgeons (Edinburgh) are put on hold, Specialty Boards are mounting their own Intermediate Examinations or joining other Specialty Boards to mount the examination. In most of our Intermediate and Exit Examinations, overseas external examiners are appointed, who join via an online platform, to provide quality assurance and international benchmarking.

This year is the last year of the 3-year CME/CPD cycle. In view of the constraints in physical attendance at local and overseas conferences, some adjustments are made to enable Fellows and Members to attain CME/CPD points. For instance, the maximum points for conducting examinations as examiners and question setters have been raised to 50 and 9 CME/CPD points per cycle, respectively. The maximum CME/CPD points in other categories such as chairing/presenting in Formal College Approved Activities (FCAA), self-study, self-arranged study groups etc. have also been raised. Meanwhile, the upcoming Spring Scientific Meeting will be held in May. Several eminent speakers will speak and share their expertise with us. Please stay tuned and register to attend this meeting.

I am glad to report that Dr LI Dion Tik Shun and Dr TSANG Yiu Cheung were conferred the Distinguished Young Fellows 2021 of our College at the last Annual Fellowship Conferment Ceremony of the Academy held in December 2021. The College welcomes more young fellows to take part in the College matters. In this connection, the election procedures of the Dental Young Fellows Chapter have recently been finalised after its committee members have completed the inaugural term. We envision many more activities being organised for our young fellows to bring solidarity and enhance a sense of belonging.

Last but not least, please stay safe and vigilant.

Dr LEUNG Chiu Man Katherine
President

Introducing New Councillors

Dr Jerome YU

I joined the Dental Services of the Government in 1989 after practising in the private sector. I am now serving in the Dental Regulatory and Law Enforcement Office (DRLEO) and my main duties mostly relate to the Private Healthcare Facilities Ordinance (Cap. 633), which include inspecting and licensing of the private dental healthcare premises. I also support the Office for Regulation of Private Healthcare Facilities (ORPHF) regarding inspection of dental services provided by the private hospitals and combined medical and dental practices licensed under Cap. 633.

Over the past thirty years, I have had the opportunities to serve in different clinical disciplines through various postings and attachment programmes. Not only did this grant me the chance to broaden my horizon, it has also extended my personal network. After completing my Master of Science in Dental Public Health at the University College London in the U.K., I started my career path in the Specialty in Community Dentistry. Since then, my major duty had shifted from the clinical to mostly administrative work.

Being a newcomer to the Council of the College of Dental Surgeons of Hong Kong, I still have a lot to learn from my peers. I will advocate for the continuous professional development in dentistry to uphold our professional standards, and hence improve the oral health of the community. Lastly, I would like to wish you all a Happy, Healthy and Prosperous New Year of the Tiger!

Dr CHAN Alex Wai Kwok

I am CHAN Alex Wai Kwok, Specialist in Endodontics and Honorary Associate Professor of the Faculty of Dentistry, The University of Hong Kong.

Having served on the College Council for 2 consecutive terms from 2001 - 2007, I am delighted to be elected once more after fifteen years as the Councilor of the College for the term 2021 - 2024.

I endeavor to serve our Members, Fellows and Colleagues to the best of my effort – such is the core value of my election. I enjoy working with Professor Katherine LEUNG, the President of the College, and other Councillors and working parties in the College. In particular, I aim to improve the training opportunities for the general dental practitioners in Hong Kong, thereby assisting them in exploring the many facets in the Profession of Dentistry.

Your continued support is paramount to my success, and I hereby express my heartfelt appreciation. Wish you all have a Prospectus Year of TIGER!

WINTER SCIENTIFIC MEETING 2021

DENTISTRY AND MEDICINE – INTER- AND INTRA-DISCIPLINARY NETWORKING 7 NOVEMBER 2021

This is the second time that the College has held the Scientific Meeting in ‘dual mode’. We had 376 attendants enjoying the lectures at home through online video conferencing, and 129 attending in person at the Pao Yuk Kong Auditorium under stringent precautionary measures.

The theme of the meeting was ‘Dentistry and Medicine – Inter- and Intra-Disciplinary Networking’. In the morning, the session was about the management of cleft lip and palate and craniofacial syndromes. It was our privilege to have speakers from the Kowloon East Cluster and the Hong Kong Children’s Hospital of the Hospital Authority discussing about their team’s approach: Drs Nicholas CHAO, Paula TANG and Peter KU were representatives from the medical discipline. Miss Yoyo YIU was a Speech Therapist. Drs FUNG Siu Chung, HO Lai In, WONG Wing Kit Ricky, AU Ka Li and KUNG Yue Hin Alvin were members of the dental team. Furthermore, it was the first time for our scientific meetings to have Higher Trainees speaking with their senior colleagues. Drs YAU Ka Yin Jessica and CHEUNG Ka Yan Karen have certainly done a good job under the guidance of Dr AU and Dr KUNG, respectively. The eye-opening lectures were chaired by Dr SO Cheuk Hang and Dr WONG Lok Wun Mildred.

In the afternoon, the focus was on periodontal medicine. Again, we were honoured to have speakers from both the medical and dental fields. Prof JIN Lijian and Prof LEUNG Wai Keung spoke together about the global and local aspects of the development of periodontal medicine. Dr TSE Sut Yee, who was trained as a dentist and a family medicine specialist, spoke about her perspective of dental and medical collaboration on total patient care. Dr Norman CHAN an endocrinologist and Dr Anita WONG a periodontist, shared with us their practice model in private practice striving for the synergistic effect for patient benefits in managing diabetes. This fruitful afternoon session was chaired by Dr WAN Chi Pui, Dr Ruby WONG and Dr LAI Man Lung Stanley.

I would like to thank our speakers, moderators, members of the CDSHK Scientific Meetings Committee and the Council, College Secretariat and the HKAM technical team for their collaborative efforts to ensure a smooth running of this webinar/physical meeting. I would also like to thank the attendees from whom we have received positive feedback and many contributory comments. We have planned a Part 2 of Dental and Medical networking in the future. Finally, I would also like to acknowledge the support from our sponsors – 3M Hong Kong Limited, Colgate-Palmolive, GlaxoSmithKline Consumer Healthcare (HK) Limited and RAZE which have played an important part to the success of the event.

DENTAL YOUNG FELLOWS CHAPTER (DYFC)

THE DENTAL YOUNG FELLOWS SEMINAR

11 JANUARY 2022

The Dental Young Fellows Seminar was held online on 11 January 2022. We were pleased to have Dr LEUNG Chiu Man Katherine, the President of CDSHK, to deliver an opening speech. We were honoured to have Professor Lakshman Samaranayake, the Past Dean of the world-class dental school – Faculty of Dentistry, the University of Hong Kong, as our keynote speaker in this seminar. Prof. Sam presented “The Promise of 21st Century Dentistry” that gave us an update of the cutting-edge research in different aspects of Dentistry.

The two distinguished young fellows of this year, Dr LI Dion Tik Shun, Clinical Assistant Professor in Oral and Maxillofacial Surgery of the University of Hong Kong; and Dr TSANG Yiu Cheung, Principal Clinical Dental Instructor in Periodontology, generously shared their expertise and experience with us in this seminar as well. Dr LI presented “Corrective Jaw Surgery: What's New?” that gave us an update in regards to computer-assisted orthognathic surgery, while Dr TSANG shared his life journey as a trainee, teacher and researcher in Periodontology.

DENTAL YOUNG FELLOWS CHAPTER ELECTION

The first term of the Dental Young Fellows Chapter (DYFC) will soon come to an end on 31 March 2022. The upcoming term of the DYFC is open to all Young Fellows who are interested in contributing to build up our community.

The Committee is composed of one Young Fellow from each specialty of the College of the Dental Surgeons of Hong Kong. All current Fellows who have become a Fellow of the College for not more than 10 years are eligible for nomination. Nominations must be proposed by one Young Fellow in the same specialty and signed by the candidate indicating that he / she is willing to offer himself/herself for election or as the case may be, re-election to the Committee.

The nominee is required to write a brief profile with the “Nominee Profile Form” to introduce himself / herself to the Young Fellows and these will be sent out to all Young Fellows after closing of the nomination period.

If only 1 Young Fellow is nominated as candidate for his/her specialty for election to the committee, the candidates shall be deemed to have been elected to the Committee. However, if the number of candidates in that speciality is more than one, the election shall be determined by postal ballot and ballot papers shall be sent to the Young Fellows of that speciality. The candidate with the highest number of votes shall be elected to the Committee.

It has been a fruitful year since the establishment of the DYFC in April 2021 and our committee has been a strong team to establish a great foundation for the DYFC. We organized an introduction to the specialist training pathway of the CDSHK to undergraduate students and new graduates in July 2021, and the first DYFC seminar was also held successfully in January 2022 amid the COVID situation. Our committee members also participated in various committees under the CDSHK and HKAM throughout the year to improve communication and foster relationship with other Fellows and Members. We are looking forward to seeing the development of the DYFC in the future and to engaging even more Young Fellows.

Thank you all for your support to the DYFC.
