devastating pandemic and gradually returning to normality. In isolation and segregation, we indeed realised that our communion is not made but given. With unity and perseverance, the College prevailed over unprecedented challenges and continued to fulfil our mission in delivering quality education and training to members during the pandemic. It is my great honour and privilege to be elected as the President of the College at this juncture to witness and embrace the power of unity, forging ahead on our journey to pre-eminence. This year will be truly memorable since we will celebrate the 30th Anniversary of CDSHK. An ancient wisdom is quoted: “At thirty, I stood firm. 三十而立”. After 30 years of development, the College has become a well-established organisation with over 600 current Fellows and Members. We are actually indebted to all our senior colleagues and members for their collective

effort and wisdom in laying down such a sound foundation for us. I must also thank Dr Leung Chiu Man Katherine, Immediate Past President, for her distinct leadership to the College in 2022. Dr Leung and Dr Cho Shiu Yin Rony had served wholeheartedly for the past twelve years in the Council while Dr Lai Man Lung Stanley had finished his dedicated 3-year term of service before they stepped down from the Council.

As oral health is an indispensable component of overall health, we are delighted by commemorating the Pearl Jubilee of HKAM together with 14 sister Colleges. As a kick-off event of 30th Anniversary of HKAM, the “Tripartite Medical Education Conference” was successfully conducted in January. There will be a series of upcoming social and educational events which will unite us in the anniversaries of CDSHK and HKAM. More details will be announced soon and I sincerely invite all Fellows, Members, Trainees and members of MGD to stay tuned and participate in these special events.

This is also a year of rejuvenation as we welcome Dr Chu Kit Ling Justin, Dr Fong Kin Man Thomas and Dr Ho King Lun Dominic as new Councillors while Dr Fang Tak Sang Daniel and Dr She Tsang Tsang Franklin have been re-elected to the Council. Together with eight newly-formed Specialty Boards, Standing Committees and the current Committee of General Dentistry, they give the College tremendous potential and momentum in serving our Members and Trainees. Besides, with the hard work of the Education & Examinations Committee and the Council, 26 training centres have been accredited in October 2022. Through the relentless support of the supervisors and trainers, these training centres will serve as nurturing grounds for our young generation of Trainees for the next five years. The Principles and Guidelines on CME/CPD have been revised by the CME Subcommittee to facilitate the continuing education and development of our members in the new 3-year cycle from 2023 to 2025. The MGD training programme for 2021-2023 diet will be completed in the 2nd half of 2023 under the leadership and excellent work of Dr Yiu Bun Ka and the members of Committee for General Dentistry.

“Embrace Unity, Pursuit Excellence!”. I have no doubt that the College will continue to excel in next decade through the contribution of teams of committed Councillors, a well organised and contemporary training system under the operation of the Specialties Boards, and most importantly a united community of devoted Fellows and members and together we will strike for excellence and success in the field of Dentistry.

## ***Dr CHU Kit Ling***

Hello, I am a Paediatric Dentist.

I worked in private practice and the Diabetes Centre of Tung Wah Eastern Hospital before I joined the Department of Health in 2007. I have worked in the School Dental Clinic since 2008. MacLehose Dental Centre of the Department of Health is one of the accredited training centres in Paediatric Dentistry. I was posted to this centre in 2015 and started my Paediatric Dentistry training. In 2021, I completed my specialist training and was admitted as a Fellow in Paediatric Dentistry. It was my dream to be a paediatric dentist ever since I started studying Dentistry in the University. I am lucky that my dream has come true! I want to give children a positive and happy dental experience, so that they will not fear the dentist or neglect their oral health when they become adults.

Thank you for all your support and for giving me a chance to be a Councillor. I will do my best in this post and bring more new impetus to the College, the Academy, the dental profession and the community.

---

## ***Dr FONG Kin Man, Thomas***

---

I am a Specialist in Paediatric Dentistry working in the School Dental Care Service (SDCS). I have been working in the Department of Health since 2007. During my time in the SDCS, I completed specialist training and was admitted as a Fellow in Paediatric Dentistry in 2019. I enjoy working with children and helping them develop a positive attitude about their oral health. I like running in my spare time as it is fun and good for your health.

Being a new council member of the College, there are many new things for me to learn e.g., administrative work and coordination related to different parties. I look forward to working with all of you and I will contribute myself to our profession to promote training, education, and knowledge transfer in Dentistry.

Firstly, I would like to express my sincere thanks for your support for my election as one of the new CDSHK Councillors.

I am Dominic Ho; I graduated from the BDS (HK) program in 2005 and completed my specialty training in Periodontology in 2011.

I had been serving as a Principal Clinical Dental Instructor in Oral Diagnosis & Polyclinics and Clinical Assistant Professor in Periodontology in the Faculty of Dentistry, HKU from 2008-2022. I established my own private practice in 2019, focusing on the practice of Periodontology and Implant complication management.

At the meantime, I am running clinical trials on minimally invasive periodontal therapy and immediate implant placement under the Discipline of Periodontology and teaching post-graduate and undergraduate clinics. I wish you a prosperous year of the Rabbit and look forward to serving you in the near future!

## CDSHK 30TH ANNIVERSARY

Our College will be celebrating 30 years of specialist training this year. Together with HKAM, there is a spectacular lineup of celebratory events from educational to social.

CDSHK will be hosting a 2-day Tri-Collegiate Scientific Conference in conjunction with the Royal Australasian College of Dental Surgeons and the College of Dental Surgeons, Singapore on 08-09 July.

The 30th Anniversary Celebration Dinner is scheduled on Saturday, 08 July at the Run Run Shaw Auditorium, HKAM Building. Please mark in your diary for an evening of joyful celebration, rekindling old friendships and establishing new ones.

To kickstart this year's celebration, there is a 5 km Run/Walk Challenge, organised by HKAM on 19 March. Our College will be sending a team of energetic dentists to meet the challenge, led by our President, Dr. Simon Ho.

Our Dental Young Fellows Chapter is hosting a "Latte Art" Workshop for the coffee enthusiasts on 25 March.

Stay tuned for a year of celebration. It is a great opportunity to show our appreciation to our predecessors, teachers and trainers who have paved the pathway for our road to become a specialist. Come and join us.

## *Run/Walk Challenge:*

### *A Kick-off Event for the 30th Anniversary of CDSHK*

---

#### **Event Summary**

On 19th March 2023, the College of Dental Surgeons of Hong Kong (CDSHK) and the Hong Kong Academy of Medicine (HKAM) commemorated their 30th Anniversary with a Run/Walk Challenge at the West Kowloon Cultural District. With the theme "Health for All, Move Forward Together," the event aimed to motivate Fellows and specialist Trainees to prioritize physical and mental fitness, leading to enhanced patient care. The challenge was a tremendous success, attracting a significant turnout and enthusiastic participation from members of the dental and medical community as well as their families.

#### **Event Details**

The Run/Walk Challenge featured two main events:

5km Run (8:15 am start): Open to invited teams, Fellows, and specialist Trainees, this race awarded nine prizes in Team (by invitation), Male, and Female categories. Runners in the Team category were eligible to compete for both Team and Individual Awards.

1km Walk (9:30 am start): A fun walk designed for Fellows, specialist Trainees, and up to three family members.

The event kicked off with an opening ceremony at 8:00 am, held at the Great Lawn, Art Park, West Kowloon Cultural District, Tsim Sha Tsui.

#### **Achievements and Acknowledgements**

CDSHK's 1st runner-up team included Dr. Thomas Fong Kin Man (Captain, Pediatric Dentistry), Dr. Alvin Kung Yue Hin (Oral and Maxillofacial Surgery), Dr. Michael Leung Tak Chi (Orthodontics), Dr. John Yau Ka Po (Orthodontics), and Dr. Franklin She Tsang Tsang (Orthodontics).

The CDSHK 30th Anniversary Organising Committee and all Council members warrant special recognition for their invaluable contributions. Dr. Daniel Fang Tak Sang spearheaded the organising committee, while Dr. Tom Ho Fu Tak liaised with the HKAM organising committee. Together with Dr. Annie Wan and team captain Dr. Thomas Fong Kin Man, Dr. Tom Ho Fu Tak also coordinated sportswear and location scouting. Additionally, Dr. Gary So Cheuk Hang and Dr. Dominic Ho King Lun played vital roles in rallying participants.

CDSHK President Dr. Simon Ho Kam Yuen not only led council members and family members in attending the event but also captured numerous memorable photos. Miss Sammi Wan managed sportswear distribution to participants and took care of their belongings throughout the event. Furthermore, recent BDS graduate Dr. Tiffany Lee Yan Lam designed eye-catching sportswear that helped participants stand out.

HKAM President Prof. Gilberto Leung Ka Kit commended the unity displayed by CDSHK Fellows and Trainees. The event garnered significant support from all Council members, including past presidents. The attendance of young Trainees and their families highlighted the importance of cultivating the next generation of specialists.

## Conclusion

The Run/Walk Challenge was an outstanding kick-off event for CDSHK's 30th anniversary, promoting unity and camaraderie among College members. This event establishes a strong foundation for upcoming celebrations and initiatives aimed at advancing health and wellness within the dental community.

### *Running with the Best:*

#### *Our College Team's Impressive Showing at the HKAM 30<sup>th</sup> Anniversary Run*

---

We recently participated in the HKAM 30th Anniversary Run, a 5km race that brought together colleges from all over. Our College formed a team, and I was thrilled to be chosen as the captain. Our team included some incredible runners like Drs. Michael Leung, Alvin Kung, Yau Ka Po, and Franklin She. Apart from the College team, there was also an individual race for Fellows and Trainees.

On the day of the race, it was rainy, but we didn't let it get us down. We did some warm-up exercises, and Michael, our fastest runner, reminded us to keep our pace at 4 min/km or faster. I have to admit, that was a bit of a challenge for me, but I gave it my all.

Thirteen other colleges took part, and some of them had really talented runners. But we didn't let that intimidate us. When the race started, we all tried to get to the front of the pack. Michael quickly took the lead and was in the top three, while Alvin was in the top ten. The rest of us ran at our own pace and kept up with the front group.

The course took us through the West Kowloon Cultural District, and we all pushed ourselves to run as fast as we could. Despite the rain and tough competition, we all finished the race with big smiles on our faces.

When the results came out, we found out that Michael finished in fourth place, and Alvin was in the top ten. Although the rest of us didn't make it to the top three, we were proud of ourselves for finishing strong and contributing to the team's overall result. In fact, we ended up getting first runner-up in the team challenge, which was an amazing accomplishment!

Overall, it was a fun and challenging experience, and I feel lucky to have been part of such an incredible team. Thanks to our supportive teammates, we were able to make it through the race together and come out on top!

## *A Walk to Remember:*

### *The Joyful Reunion of Fellows and Friends at the HKAM 30<sup>th</sup> Anniversary*

---

After the 5 km run, there was a 1 km walk event. While the 5 km run was a keen competition, this 1 km walk was more like a party for a reunion of friends. The sun woke up and joined our walk on time. The temperature was nice and the road was not wet or slippery. All of us enjoyed the Victoria Harbor signature view with gentle sunshine and breeze. Fellows and Members chitchatted and walked with their friends and families. Children and pets joined the walk as well. The purple-dressed Fellows and Members formed a dragon along the coast of the West Kowloon Cultural District circulating the Hong Kong Palace Museum.

Time flew and we finished the 1 km walk very soon. However, the event was not finished and we continued to take group photos, selfies, and chitchat. Each participant received a medal signifying the completion of a 1 km walk.

### *Purple Power:*

### *Our Strong and Determined Team at the 30<sup>th</sup> CDSHK Anniversary*

### *Run and Walk Event*

---

Embrace unity, pursuit excellence is theme of the CDSHK 30th Anniversary. We had more than 70 Fellows, Trainees and their family members joining this event, which that showed we truly have a big DENTAL family. As a runner of run and walk event and a member of the 30th CDSHK Organising Committee, I was fortunate and glad to participate.

I would like to thank Dr. Dominic Ho, Dr. Raymond Leung and Sammi Wan, my niece, who helped to distribute the colourful Tees and singlets so no one would miss our big PURPLE team running in the Kowloon West with Victoria Harbour besides us... We had a strong running team, not the youngest but definitely very determined crew, and we got 1st runner-up in the team race.

I assure you this is only the start of 30th CDSHK anniversary celebrations, and there are more exciting events to come. Be prepared, continue to enjoy, support, and show our unity.

## *Sportswear design*

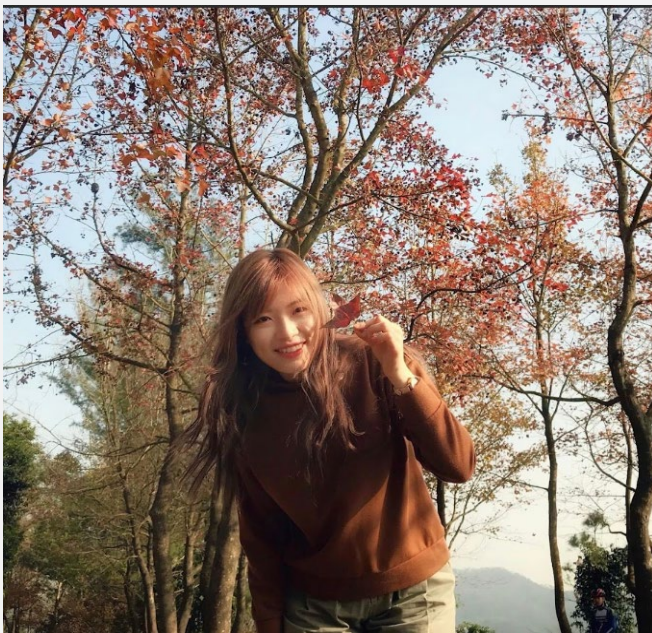

---

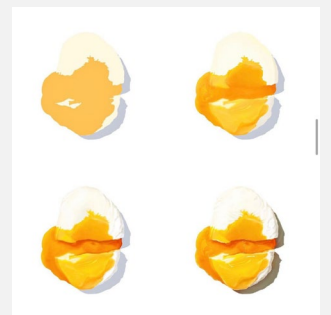

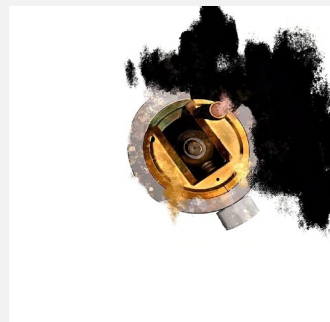

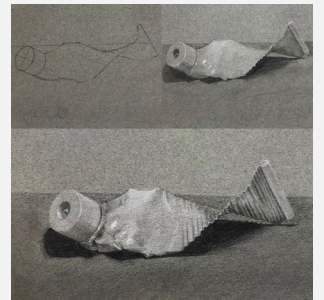

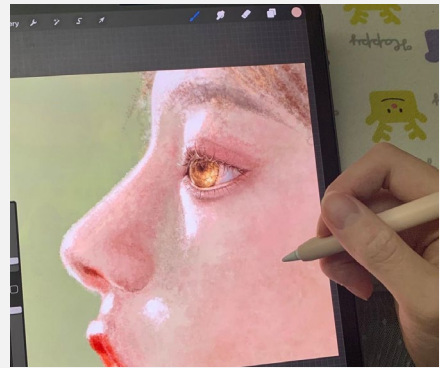

Drawing has been a stress-relieving activity during my undergraduate studies. Apart from doing it leisurely, I also had a little experience in producing illustrations for both academic (BDS learning materials) and non-academic uses (cafe menus).

For the sportswear, a vivid purple background was chosen as it represents the College. Yet, working on such a vibrant canvas can be tricky. I used various hues (pink, green, blue, green, white) to add some sense of playfulness without complicating the design. Instead of using a bright palette, I muted the colours a lot so that the design can stand out more.

It was very satisfying to receive positive feedback and see people enjoying the event while wearing the T-shirt I designed. Thank you for giving me this opportunity!

## *Latte Art Workshop:*

### *The second event for the 30<sup>th</sup> Anniversary of CDSHK*

---

A Latte Art Workshop was held by the Dental Young Fellows Chapter (DYFC) on 25 March 2023. It was the first DYFC social event since the COVID outbreak. Most of the participants were new to this delicate art, which required excellent manual dexterity that was comparable to that required in dentistry.

Attributed to the intensive dental school and the additional specialist teaching, we were all trained with a pair of good hands and managed to avoid coffee spillage. "A steady hand is the fundamentals and I'm surprised that you all rookie barista are quite good at that!" Said by the workshop tutor Isaac.

"Whose hands are better? The endodontist, orthodontist or oral surgeon?". Joyful interactions and laughter were in the small classroom the whole night. With active participation and repeated trial and errors, most of us were able to create a satisfying latte art pattern. Some talented participants picked up the skills swiftly and were able to perform the latte art on their own without the assistance from instructor.

As part of the CDSHK 30th Anniversary celebratory event, the instructor specifically designed a unique latte art pattern for us. We were all impressed with that artistic and vivid latte art piece.

In case you found any activities or functions that are suitable for our Fellows/Trainees to join, feel free to contact me or other DYFC committee members. Your support is the key element for this new committee to grow.

# WINTER SCIENTIFIC MEETING 2022

## DENTISTRY AND MEDICINE – INTER- AND INTRA-DISCIPLINARY NETWORKING PART 3: ONCOLOGY AND RECONSTRUCTION

6 NOVEMBER 2022

This was the finale and Part 3 of the 'Dentistry and Medicine – Inter and intra-Disciplinary Networking' series with the theme of Oncology and Reconstruction. We had 308 online and 66 physical attendees at the Pao Yuk Kong Auditorium.

Our President, Dr. Katherine Leung kicked off the event and welcomed our audience. The morning session was chaired by Dr. Gary So and Dr. Amelia Cheung. We were privileged to have the following speakers: Dr. Fung Siu Chung, Michael Chao and Crystal Ng from the Department of Dentistry and OMFS, the United Christian Hospital, highlighting the dental role in managing oral cancer. Dr. Polly Fung, a private practitioner, introduced the oral medicine approach in managing oral potentially malignant disorders. Next, we had Dr. Jeren Lim from the division of Head and Neck Surgery of the Department of Surgery, the United Christian Hospital, discuss the surgical aspect of oral cancer. The morning session was completed by Dr. Kwan Chung Kong, Department of Oncology, the United Christian Hospital, who gave us an update on the non-surgical treatment of oral cancer.

The afternoon session was chaired by Dr. Jason Wong and Dr. Jerome Yu. Dr. Au Ka Li and Dr. Yau Kar Yin from the Department of Dentistry and OMFS, the United Christian Hospital, presented the OMS aspect, complication management and the role for pre-prosthetic and craniofacial prosthesis. Dr. Patrick Wu, a specialist in Prosthodontics, introduced to us the dental and maxillofacial prosthetic reconstruction in resected tumour defects. Prof. Richard Su from OMFS, Faculty of Dentistry, HKU, concluded the program by sharing with us the experiences of his team in using new technologies for oral cancer diagnosis and treatment.

I would like to thank our speakers, moderators, members of the CDSHK Scientific Meetings Committee and the Council, Secretariats and the HKAM technical team for their collaborative efforts to make this webinar/physical meeting run smoothly. I would also like to thank the attendees of this meeting; we have received positive feedback and many contributory comments again. Finally, I would also like to acknowledge the support from our sponsors – Stryker and GlaxoSmithKline Consumer Healthcare (HK) Limited which have played an important part to the success of the event.

# DENTAL YOUNG FELLOWS CHAPTER (DYFC)

## TIPS ON SUCCESSFUL DENTAL PRACTICE

15 DECEMBER 2022

It has always been a challenge to Young Fellows in setting up their own dental practice after their specialist training as business and finance were never been part of the content for dental graduates.

In view of this, DYFC invited 3 experienced fellows to share with us some practical tips related to clinic setup in Dec 2022. Besides, we were grateful to invite our newly elected College President, Dr Simon HO to give us a meaningful welcome speech as an opening.

The first section was the practical sharing by Dr Adrian PONG, Specialist in Prosthodontics. He covered various topics included financing knowledge, clinic management, company setup, equipment installation, licenses application, staff recruitment and management, etc. In addition, Dr PONG also shared the obstacles encountered during the COVID outbreak.

The second section was presented by Dr Andrew BUT, Specialist in Community Dentistry. He focused on sharing the legal aspect of the newly implemented Private Healthcare Facilities Ordinance (Cap. 633). Moreover, Dr BUT summed up what issues Young Fellows need to be aware and presented all the highlights in a concise manner.

The third section was delivered by Dr Paul LAU, Specialist in Orthodontics. He focused on how to set up a specialist dental practice by Young Fellows. Dr LAU analyzed different factors related to the choice of office space, supported by latest market trends and figures. He also shared some of his own clinic projects on “how to transform a vacant commercial space into a modern dental office”.

It was an honor to have 3 “C Hing” guiding on our first steps of

the path to our business. The atmosphere was joyful with active interaction in the Q&A session. Our speakers generously passed on their valuable experience to the younger generation. We received positive feedback in acquiring this non-dental related knowledge.

## UPCOMING EVENT

Good news for Caffè Latte lovers! A Latte art workshop for beginners with hands-on will be held in March 2022. Don't miss the chance if you are interested in different fun patterns of latte art. Stay tuned for further announcements from the College.

## DENTAL YOUNG FELLOWS CHAPTER COMMITTEE ELECTION

The current term of the DYFC is going to end soon on 31 March 2023. Due to the active participation of the Young Fellows and the unwavering support of the CDSHK Council to our campaigns, it was a rewarding year in strengthening the bonding among Young Fellows of different specialties.

We are now looking for passionate Young Fellows to join us in the coming term. The Committee is composed of one Young Fellow from each specialty of the CDSHK. Those who have been a Fellow for not more than 10 years are eligible for nomination.

Young Fellows will definitely enlarge their dental community by organizing various events. With the chance of joining various Subcommittees or working groups of both the HKAM and CDSHK, you will also gain a better understanding about the operations of the above bodies. We look forward to seeing new faces in the new Committee. Details of the election will be sent out by the Secretariat in late Feb.

## Dental Young Fellows Chapter 2023-2024

The Dental Young Fellows Chapter was established in 2021. It is an established body within the College of Dental Surgeons of Hong Kong and reports directly to the Council of the College of Dental Surgeons of Hong Kong. Its objectives are to act as a platform for communication between Young Fellows and the College Council on training and other issues relevant to the Young Fellows; to enhance interflow, collaboration and networking among Young Fellows; to enrich sense of belonging to the College through engagement and involvement in the College; and to promote communication with other colleges and the Young Fellows Chapter of the Hong Kong Academy of Medicine.

Any current fellow who has been a Fellow of the College for not more than 10 years is considered as a “Young Fellow”. And all Young Fellows would be members of the YFC.

The Young Fellows Chapter Committee is composed of eight members - one Chairperson, one Vice Chairperson, one Secretary and five committee members. Each specialty has one representative in the committee. The term of office starts from the first of April each year to the end of March next year.

The new Dental Young Fellows Chapter Committee Members (2023-2024) have been elected:

Chairlady:	Dr. CHU Kit Ling, Specialist of Paediatric Dentistry

# PROFESSOR CHEUNG LIM KWONG'S OBITUARY

## Professor Cheung Lim Kwong

BDS, PhD, FFD RCS (Irel), FDS RCPS (Glasg), FRACDS, FRACDS (OMS), FHKAM (Dental Surgery),  
FCDSHK (OMS), FDS RCSEd, FFGDP (UK)

**18 September 1958 – 19 November 2022**

We feel sorrow at the passing of Lim. Dying at 64 years of age is too young by today's standard.

Despite that, he had lived a colourful life with numerous achievements. When he had graduated from his dental school in Glasgow, he decided to return to HK and became a lecturer in Oral Surgery in the Dental Faculty, The University of Hong Kong. I remember I was one of his students and amongst many others, we were very impressed by his refreshing style of teaching. His lecture was full of energy so easy to engage the audience.

Hong Kong had changed in many ways in the last four decades leading to plenty of opportunities and challenges to every one of us including Lim. He was able to seize with the tide of evolution during the wave of China-Hong Kong Integration. He became the professor in Oral & Maxillofacial Surgery at one stage, and established his private practice at a later stage.

At the peak of his teaching career, as a well-rounded clinical surgeon who was always at the forefront of the specialty, he had much to give students and trainees. As an established clinical surgeon, he was courageous and gifted.

He never slowed down in his life journey, and he always managed with ease in spite of wearing so many hats. His death was such a loss to his family, friends, colleagues, and patients. As a respected colleague, beloved friend, renowned academician, and talented surgeon, he will continue to live in our memories.
